Jesus in a World of Colliding Empires, Volume One: Introduction and Mark 1:1—8:29 Mark J. Keown, 2018-03-20 At the time of Christ world politics was an ebb and flow of colliding empires and forces The world knew only dynastic succession and rule by force Israel was swept up in this world Her expectations of deliverance while diverse had in common the anticipation of violent liberation by an alliance of God the expected one Theo and Israel s forces Her vision included the subjugation of the world to Yahweh Any messianic claimant would be expected to fulfill this hope Mark s story of Jesus must be read against such expectations of military power Mark knows that Jesus plan of salvation differed radically from this Rather than liberation through revolution it involved deliverance through humble loving service and cross bearing However the disciples follow Jesus but do not understand Jesus purpose They constantly expect war So the Gospel is then read from Mark s full understanding and the disciples flawed perspective In volume two of *Jesus in a World of Colliding Empires* Keown continues to unpack Mark s Gospel 8 30 16 8 in which Jesus teaches the disciples what it means to be a Servant Messiah rather than a military conqueror The then draws a range of conclusions and applications from Mark for life today **The**

Global Plant Invasions David R. Clements, Mahesh K. Upadhyaya, Srijana Joshi, Anil Shrestha, 2022-04-18 Invasive species have inspired concern for many reasons including economic and environmental impacts in specific jurisdictions within particular countries However it is apparent that for some invasive plant species political borders offer only weak barriers because these species have succeeded in invading many countries emerging as threats at a global level With this level of threat a number of books on invasive plants and invasive species in general have been published in recent years but none explicitly provides global coverage perhaps because it is only recently that the full geographical economic and environmental implications of widespread spread and adaptive nature of these particular invasive plants have been recognized We plan to make this volume unique by profiling plant invasions in explicitly geographical contexts on the world continents Chapters 5 11 as well as islands Chapter 12 and mountains Chapter 13 This global approach is supported by an overview of invasion biology and recent advances Chapter 1 and how different communities differ in invasibility Chapter 2 Global factors influencing invasion are introduced in Chapter 3 globalized trade and Chapter 4 climate change Key species are profiled through geographic treatments continent by continent Chapters 5 11 and for islands Chapter 12 and mountains Chapter 13 The impact of invasive plants is highlighted in Chapter 14 both in biotic and economic terms partly to counter the tendency for the young field of invasion biology to rely too much on anecdotal evidence This chapters is also designed to bring home the message that these are serious problems that must be dealt with as covered in the subsequent chapters The book concludes with three chapters casting light on solutions to the many problems described in the rest of the volume Chapter 15 features new innovative technologies that are being developed to monitor and manage invasive plants and Chapter 16 presents comprehensive strategies for public education and implementation of management on local and global scales Chapter 17 describes different future scenarios depending on current trends in plant invasion and its management just as climate change predictions employ various scenarios to project the future The future is very much up to us as humanity grapples with the question of how best to strategically meet the problems of global invasive plant problems that we ourselves have created that is further challenged by a changing climate We are confident that this book will be of interest to invasion biologists resource managers and the legion of others who must deal with these invasive plants across the globe on a daily basis
