urban differences For example in all the major cultural groups food preparation and cooking have always been women s work with the exception of the meat roast asado by llaneros and gauchos The rise of the cooking profession is discussed as well A fascinating look at the daily meal schedule includes insight in to how the European conquerors imposed their eating habits and encouraged overeating with the abundance found in the New World Modern life is shown to affect where people eat as buying meals often from street vendors during the workday has become more of a necessity The survey includes a discussion of special occasions including agricultural celebrations and Catholic feasts with indigenous elements The overview is completed by a chapter on diet and health covering such topics as botanical knowledge and science and an assessment of the nutritional value of the South American staples Classic recipes from many of the countries and illustrations complement the narrative
