Risk and Uncertainty Reduction by Using Algebraic Inequalities Michael T. Todinov,2020-06-02 This book covers the application of algebraic inequalities for reliability improvement and for uncertainty and risk reduction. It equips readers with powerful domain independent methods for reducing risk based on algebraic inequalities and demonstrates the significant benefits derived from the application for risk and uncertainty reduction. Algebraic inequalities provide a powerful reliability improvement, risk and uncertainty reduction method that transcends engineering and can be applied in various domains of human activity. Present an effective tool for dealing with deep uncertainty related to key reliability critical parameters of systems and processes. Permit meaningful interpretations which link abstract inequalities with the real world. Offer a tool for determining tight bounds for the variation of risk critical parameters and complying the design with these bounds to avoid failure. Allow optimising designs and processes by minimising the deviation of critical output parameters from their specified values and maximising their performance. This book is primarily for engineering professionals and academic researchers in virtually all existing engineering disciplines.

Der Seelenbeweis. Das Wissen über die Seele in Philosophie und Wissenschaft Wigbert Winkler,2020-11-17 Die Frage, ob es eine Seele gibt, die unsterblich ist und die Existenz des Menschen nach seinem physischen Ableben gewährleistet ist, so alt wie die Menschheit. In allen Hochkulturen wurde darüber geforscht und überzeugendes Beweismaterial für ein Fortleben nach dem Tod erarbeitet. Wigbert Winkler dokumentiert die faszinierendsten historischen Einsichten der großen Weisen und Wissenden und setzt sie in Bezug zu den fortschrittlichsten Erkenntnissen der bedeutendsten Naturwissenschaftler. So entsteht eine Dokumentation des Besten aus zwei Welten, an deren Ende der glaubwürdige Nachweis erbracht werden kann. Die Seele existiert ohne jeden Zweifel. Ein Meilenstein in dem hochaktuellen Dialog zwischen Wissenschaft und Spiritualität.
