the COVID 19 pandemic as the prime example of an externally imposed interlude on a mass scale the book argues that the compulsion of most colleges and universities to return to business as usual reveals that the business of the academic enterprise is only tangentially about learning ideas or the life of the mind It is mostly about keeping the institutional machinery running at all costs typically at the behest of state and market forces Meanwhile interludes of any size or duration from massively disruptive global pandemics to brief elective personal retreats offer occasions for interrogating our entrenched policies and practices and are simultaneously spaces for the pursuit of learning and idea play both within and beyond institutions Exceptional Child Education Resources ,2002 **The Scottish Educational Journal** ,1936
