Alpers, 2003-10-16 Focusing on portrayals of Mussolini's Italy Hitler's Germany and Stalin's Russia in U.S. films magazine and newspaper articles books plays speeches and other texts Benjamin Alpers traces changing American understandings of dictatorship from the late 1920s through the early years of the Cold War During the early 1930s most Americans conception of dictatorship focused on the dictator Whether viewed as heroic or horrific the dictator was represented as a figure of great masculine power and effectiveness As the Great Depression gripped the United States a few people including conservative members of the press and some Hollywood filmmakers even dared to suggest that dictatorship might be the answer to America's social problems In the late 1930s American explanations of dictatorship shifted focus from individual leaders to the movements that empowered them Totalitarianism became the image against which a view of democracy emphasizing tolerance and pluralism and disparaging mass movements developed First used to describe dictatorships of both right and left the term totalitarianism fell out of use upon the U.S. entry into World War II With the war's end and the collapse of the U.S. Soviet alliance however concerns about totalitarianism lay the foundation for the emerging Cold War ERIC Information Analysis Products, 1975-1977 Educational Resources Information Center (U.S.), 1978 **Totalitarianism and Political Religions, Volume II** Hans Maier, Michael Schäfer, 2007-12-24 Available for the first time in English language translation this is the long awaited second volume of the three part set on Totalitarianism and Political Religions edited by the eminent Professor Hans Maier This represents a major study with contributions from leading scholars of political extremism sociology and modern history the book shows how new models for understanding political history arose from the experience of modern despotic regimes We are used to distinguishing the despotic regimes of the twentieth century Communism Fascism National Socialism Maoism very precisely according to place and time origins and influences But what should we call that which they have in common On this question there has been and still is a passionate debate Indeed the question seemed for a long time not even to be admissible Clearly this state of affairs is unsatisfactory The debate has been renewed in the past few years After the collapse of the communist systems in Central East and Southern Europe a scarcely surveyable mass of archival material has become available Following the lead of Fascism and National Socialism communist and socialist regimes throughout the world now belong to the historical past as well This leads to the resumption of old questions what place do modern despotisms assume in the history of the twentieth century What is their relation to one another Should they be captured using traditional concepts autocracy tyranny despotism dictatorship or are new concepts required Here the most important concepts totalitarianism and political religions are discussed and tested in terms of their usefulness This set of volumes is as topical and relevant to current world events in the twenty first century Mussolini and Italy Edward
