Call to Freedom Sterling Stuckey, 2003 Teaches U S history employing the themes geography economics government citizenship science technology and society culture Constitutional heritage and global relations *China and EU Antitrust Review of Refusal to License IPR* Dr. Tiancheng Jiang, 2015 Striking a proper balance between unilateral exercise of intellectual property rights on the one hand and competition rules on the other hand is not an easy exercise The right owners unilateral behaviour of refusal to license is one such delicate issue particularly for China considering that it has not been clarified within existing competition rules how to assess a right owner's specific unilateral practices In a series of cases the EU courts have established the exceptional circumstances in which the right owners refusal conduct might be considered as an infringement of EU competition rules In general Chinese competition law has been modelled after the EU competition rules This book firstly examines the EU approaches on dominant undertakings refusal to license intellectual property rights and the follow on pricing issue and then explores to what extent the EU model could contribute to China's anti monopoly practice Economics Gary E. Clayton, 2008 **Challenge of Freedom** Roger LaRaus, Harry P. Morris, Robert Sobel, 1990

Handbook of International Economics G.M. Grossman, Kenneth Rogoff, 1997-10-24 This Handbook adopts a traditional definition of the subject and focuses primarily on the explanation of international transactions in goods services and assets and on the main domestic effects of those transactions The first volume deals with the real side of international economics It is concerned with the explanation of trade and factor flows with their main effects on goods and factor prices on the allocation of resources and income distribution and on economic welfare and also with the effects on national policies designed explicitly to influence trade and factor flows In other words it deals chiefly with microeconomic issues and methods The second volume deals with the monetary side of the subject It is concerned with the balance of payments adjustment process under fixed exchange rates with exchange rate determination under flexible exchange rates and with the domestic ramifications of these phenomena Accordingly it deals mainly with economic issues although microeconomic methods are frequently utilized especially in work on expectations asset markets and exchange rate behavior Publisher's information
