Overseas Bases and US Strategy Jonathan Stevenson, 2022-08-01 Overseas military bases have been the bedrock of the United States ability to project military power exert political influence and deter potential adversaries since the Second World War But fatigue with America's forever wars as well as more nuanced financial and strategic reasons has inclined the public and policy community to favour reducing US global military activities and overseas presence In this Adelphi book Jonathan Stevenson argues that this desire does not necessarily translate into sound strategy Overseas bases are a key element of the

reassurance required to resurrect and bolster America's reputation among its allies and adversaries. Meanwhile strategic imperatives and geopolitical realities impose restraints in every theatre. The fluidity prevailing in the Middle East and Indo Pacific counsels maintaining forward deployed forces there at roughly the current level. Russia's confrontational posture towards NATO and invasion of Ukraine as well as NATO's short and medium term reliance on US capabilities require the American presence in Europe to increase and expand eastward. The US should not commit itself to a foreign policy that is heavy on forward deployed military power and light on diplomacy. But paradoxically reducing forward military presence may not be consistent with a policy that is less focused on military power as a means of achieving stability and security. Air University Library Index to Military Periodicals, 1998 **Monthly Weather Review**, 1913 Cuba on the Brink James G. Blight, Bruce J. Allyn, David A. Welch, 2002. With the disintegration of the Soviet Union and international socialism Cuba now finds itself isolated as the United States continues to press for its economic and political collapse. How Fidel Castro sees Cuba's plight and what he hopes to do about it emerge from this account of a unique conference held in Havana in 1992. The meeting brought together participants in the Cuban missile crisis from the former Soviet Union, Cuba and the U.S. to discuss its causes and course. This account is now available for the first time in paperback on the 40th anniversary of the Cuban Missile Crisis. This first meeting between Castro, his ex-Soviet allies and his American foes produced startling revelations about his dealings with the Soviets, chilling details of the number and kind of Soviet nuclear arms that Cuba possessed in 1962 and an illuminating account of Castro's view of the American threat then and now. The dramatic exchanges between Castro and such conference participants as Anatoly I. Gribkov, former head of the Warsaw Pact, former U.S. Secretary of Defense Robert McNamara and Arthur Schlesinger Jr., Special Assistant to John Kennedy, reveal misperceptions on all sides that led us to the brink of nuclear war. An extraordinary examination of an international crisis, *Cuba on the Brink* illustrates the ongoing Cuba problem and will help guide our actions toward other countries deemed hostile to our national interest.

China's Two Identities Theodor Tudoroiu, 2024-06-07. This book presents an original explanation of the stark contrast between two very different Chinese foreign policy patterns. On the one hand, there is Beijing's hard power actorness related among others to territorial disputes and wolf-warrior intimidating maneuvers. On the other hand, there are China's peaceful and cooperative actions well illustrated by the Belt and Road Initiative. This book shows that this situation is best understood as a consequence of the coexistence of two different Chinese identities respectively associated with the concepts of nineteenth-century style territorial empire and twenty-first-century style postmodern global power. The book contends that in China's case, they form a virtuous circle characterized by a specific division of labor as both identities are instrumental to the construction of a new Chinese-led international order. The book provides a detailed analysis of the genesis, development, features and interplay of these identities. It is relevant to scholars in China studies, political history, contemporary politics and foreign policy. The Defense Policies of Nations Douglas J. Murray, Paul R. Viotti, 1994.
