Green Separation Processes Carlos A. M. Afonso,João Pedro G. Crespo,2006-05-12 This timely book is the first to provide a comprehensive overview of all important aspects of this modern technology with the focus on the green aspect The expert authors present everything from reactions without solvents to nanostructures for separation methods from combinatorial chemistry on solid phase to dendrimers The result is a ready reference packed full of valuable facts on the latest developments in the field high quality information otherwise widely spread throughout articles and reviews From the contents Green chemistry for sustainable development New synthetic methodologies and the demand for adequate separation processes New developments in separation processes Future trends and needs It is a must have for every researcher in the field Dance/movement Therapists in Action Robyn Flaum Cruz,Cynthia Florence Berrol,2019 Dance Movement Therapists in Action fosters awareness of the living body honors diverse ways of working and leads toward creative expression and integration This edited text written by authors with exemplary credentials spans and illuminates a breadth of investigative inquiry approaches and models to all students clinicians and researchers interested in dance movement therapy DMT research The text highlights two basic research frameworks quantitative objective and qualitative interpretative including their underlying philo sophic and theoretical tenets The authors goal has been to create a comprehensible accessible book that is readable and engaging one that contains accepted research protocols in conjunction with practical infor mation written in nontechnical terms Many examples are incorporated throughout the text to clarify and amplify each of the various research options A spectrum of research alternatives are presented that can inform clinical practice inspire clinicians and students and guide further research inquiry These chapters hold a wealth of information and examples that will be of particular use and interest to clinicians and were conceived and written with practitioners in mind for example one featuring the use of movement observation scales for DMT research and clinical practice and one on using research results to inform clinical practice A completely new chapter on embodied descriptive and interpretive methods in DMT research also has been added This volume will afford dance movement therapists the tools to conduct research related to both clinical practice and academic inquiry *Climate action and legal foundations* ,2024-06-06 Research Paper undergraduate from the year 2019 in the subject Environmental Sciences Sustainability language English abstract This paper analyses the existing laws related climate change and how they support climate action all over the world Emerging trend of climate change litigation has also caught world s attention which is being categorized as the ultimate climate action The

primary methodology tool used is a study of journey taken by the world to accept climate change as a concern and study of laws implemented in furtherance of this concern and conclude whether it is enough or not The instant paper contains seven chapters The first Chapters outlines the gradual shift from climate change to climate action Second Chapter of the paper discusses the international law related climate change including climate action initiatives taken under these laws Climate change litigation is discussed in the third chapter Fourth and the fifth chapter of the paper outline the Indian perspective and climate change litigation in India respectively The last chapter elaborates the concept of circular economy Climate change and its impact are not limited to a particular region or a particular group of people Some places may be more vulnerable to its effects than other places but each and every place on earth is being affected by climate change A global threat in form of global warming and climate change has been looming over our head for the past century or so Climate change has been addressed and tackled by various international organizations and treaties These treaties have formed the basis of International Environmental Law which is still developing and requires expanding its scope The main problem with International Environmental Law is its lack of implementation and binding force The objective of this research paper is to find out whether the obligatory and binding nature of international law is enough to handle the increasing impacts of climate change or not Several countries have included environmental law in their existing laws or devised and implemented new laws that under international obligation or good conscience aiming to preserve and protect the environment Therefore the research is whether existing legal regime at the national and international level is enough to reverse the damages done to the environment and prevent further damage Response to climate change has taken a shape of climate action over the years with people taking active participation in the initiatives taken across the world and binding nature

Phenomenology in Action for Researching Networked Learning Michael Johnson, Felicity Healey-Benson, Catherine Adams, Nina Bonderup Dohn, 2024-08-14 This book champions phenomenology's place in networked learning theory research and practice The book illuminates and showcases something of the powerful richness depth and novel insights offered by phenomenological perspectives on human experience to invoke a fundamental rethinking of experience in networked learning It also signals the broader learning technology community to acknowledge and engage with these perspectives The editors and authors have collaborated to bring a renewed focus upon the human facet of networked learning As our world becomes more digitally enmeshed infiltrated and contested the need to investigate and convey at maximum fidelity the lived experience of learners teachers and other stakeholders in education becomes paramount Through phenomenological inquiry we disclose the complex dance between the human and the technical spotlighting how individuals engage navigate and find meaning within virtual yet embodied landscapes This approach suitably honours the complexity profundity and ethicality of human existence in our evolving digital ecologies The first section Phenomenological Perspectives in Researching Networked Learning lucidly explains phenomenology and some of its potential affordances The second section Practising Phenomenological Research in

Networked Learning explicates the tangible practice of phenomenological research into specific phenomena chapters sample of a select range of studies that also indicate the kind of insights such research can bring to networked learning The concluding section presents two chapters that denote novel and arresting Critical Phenomenological Perspectives on Networked Learning Together these final chapters demonstrate the type of radical challenge that phenomenology can bring to the field refreshing even networked learning s most basic conceptions and practices With this book we open a space for anyone who wishes to join us in the wonderful inspiring and challenging application of phenomenology within the field of networked learning

Law in an Era of Smart Technology Susan Brenner,2007-12-31 Should law be technologically neutral or should it evolve as human relationships with technology become more advanced In Law in an Era of Smart Technology Susan Brenner analyzes the complex and evolving interactions between law and technology and provides a thorough and detailed account of the law in technology at the beginning of the 21st century Brenner draws upon recent technological advances evaluating how developing technologies may alter how humans interact with each other and with their environment She analyzes the development of technology as shifting from one of use to one of interaction and argues that this interchange needs us to reconceptualize our approach to legal rules which were originally designed to prevent the misuse of older technologies As technologies continue to develop over the next several decades Brenner argues that the laws directed between human and technological relationships should remain neutral She explains how older technologies rely on human implementation but new smart technology will be completely automated This will eventually lead to as she explains the ultimate progression in our relationship with technology the fusion of human physiology and technology Law in an Era of Smart Technology provides a detailed historically grounded explanation as to why our traditional relationship with technology is evolving and why a corresponding shift in the law is imminent and necessary
