The Media Creates Us in Its Image and Other Essays on Technology and Culture

Richard Stivers,2020-03-31 The Media Creates Us in Its Image and Other Essays on Technology and Culture proposes that modern technology seriously influences every aspect of culture and personality Technology shapes our beliefs and values and even how we think of ourselves It affects religion morality education language communication and sexual identity Every institution every organization is brought under its purview This book attempts to awaken the reader to the destructive side of modern technology that exists side by side with its constructive side What modern technology is destroying however is the very meaning of being human The essay The Media Creates Us in Its Image makes this case most dramatically The book asks the reader the following question Is what you have gained from the use of modern technology more important than what you have lost How do we once again bring technology under our control in the face of its inexorable progress

SAT,2011-01-01 SAT SAT SAT SAT SAT *Educating for a New Future: Making Sense of Technology-Enhanced Learning Adoption* Isabel Hilliger,Pedro J. Muñoz-Merino,Tinne De Laet,Alejandro

Selter, **Being Possible** Stephen Dozeman,2020-12-16 In April 2019 Canadian psychologist Jordan B Peterson sat down with Slovenian philosopher and psychoanalyst Slavoj Žižek for a debate that would collect higher ticket prices than the local Toronto Maple Leafs game. The debate was considered by many to be something of a dud with both figures largely appearing to talk past each other but to ignore it would be a mistake. Instead the fact that a major public event put the Communist vs Capitalist question back into play speaks to larger cultural trends that are occurring. An old consensus seems to be bursting at the seams and it's unclear if the center will hold or be moved. Taking on the existentialism of Martin Heidegger as their starting point, Stephen Dozeman argues that understanding this debate means starting with the individual subject and understanding its increasingly confused and precarious place in a disenchanted world. Wandering in between philosophical theory history popular culture and back to philosophy again this book tries to explore why so many feel compelled to call ancient wisdom into question and what it might mean to take responsibility for our lives.

The 5-year Outlook on Science and Technology, 1981 **Reader's Guide to Women's Studies** Eleanor Amico, 1998-03-20 The Reader's Guide to Women's Studies is a searching and analytical description of the most prominent and influential works written in the now universal field of women's studies. Some 200 scholars have contributed to the project which adopts a multi layered approach allowing for comprehensive treatment of its subject matter. Entries range from very broad themes such as Health General Works to entries on specific individuals or more focused topics such as Doctors.

Philosophy of Technology P.T. Durbin, 1989-06-30 The corps of philosophers who make up the Society for Philosophy their typing and retyping of the MSS and especially notes and references also contributes to keeping our standards high. PAUL T DURBIN vii Paul T Durbin ed Philosophy of Technology p vii

Genre in Language, Discourse and Cognition Ninke Stukker, Wilbert Spooren, Gerard Steen, 2016-05-10 The study of genre is scattered across research disciplines. This volume offers an integrative perspective starting from the assumption that genres are cognitive constructs recognized maintained and employed by members of a given discourse community. Its central questions are What does genre knowledge consist of? How is it organized in cognition? How is it applied in discourse production and interpretation? How is it reflected in language use?

Time and Philosophy John McCumber, 2014-10-14 Time and Philosophy presents a detailed survey of continental thought through an historical account of its key texts. The common theme taken up in each text is how philosophical thought should respond to time. Looking at the development of continental philosophy in both Europe and America the philosophers discussed range from Hegel Marx Kierkegaard Nietzsche Husserl Heidegger Arendt Adorno and Horkheimer Sartre de Beauvoir Foucault Derrida to the most influential thinkers of today Agamben Badiou Butler and Rancière. Throughout the concern is to elucidate the primary texts for readers coming to them for the first time. But beyond this Time and Philosophy aims to reveal the philosophical rigour which underpins and connects the history of continental thought.

The Journal of Ocean Technology, International Handbook of Metacognition and Learning Technologies Roger Azevedo, Vincent Aleven, 2013-04-23 Education in today's

technologically advanced environments makes complex cognitive demands on students pre learning during and post learning Not surprisingly these analytical learning processes metacognitive processes have become an important focus of study as new learning technologies are assessed for effectiveness in this area Rich in theoretical models and empirical data the International Handbook of Metacognition and Learning Technologies synthesizes current research on this critical topic This interdisciplinary reference delves deeply into component processes of self regulated learning SRL examining theories and models of metacognition empirical issues in the study of SRL and the expanding role of educational technologies in helping students learn Innovations in multimedia hypermedia microworlds and other platforms are detailed across the domains so that readers in diverse fields can evaluate the theories data collection methods and conclusions And for the frontline instructor contributors offer proven strategies for using technologies to benefit students at all levels For each technology covered the Handbook Explains how the technology fosters students metacognitive or self regulated learning Identifies features designed to study or support metacognitive SRL behaviors Reviews how its specific theory or model addresses learners metacognitive SRL processes Provides detailed findings on its effectiveness toward learning Discusses its implications for the design of metacognitive tools Examines any theoretical instructional or other challenges These leading edge perspectives make the International Handbook of Metacognition and Learning Technologies a resource of great interest to professionals and researchers in science and math education classroom teachers human resource researchers and industrial and other instructors

Digital Writing Technologies in Higher Education Otto Kruse,Christian Rapp,Chris M. Anson,Kalliopi Benetos,Elena Cotos,Ann Devitt,Antonette Shibani,2023-09-14 This open access book serves as a comprehensive guide to digital writing technology featuring contributions from over 20 renowned researchers from various disciplines around the world The book is designed to provide a state of the art synthesis of the developments in digital writing in higher education making it an essential resource for anyone interested in this rapidly evolving field In the first part of the book the authors offer an overview of the impact that digitalization has had on writing covering more than 25 key technological innovations and their implications for writing practices and pedagogical uses Drawing on these chapters the second part of the book explores the theoretical underpinnings of digital writing technology such as writing and learning writing quality formulation support writing and thinking and writing processes The authors provide insightful analysis on the impact of these developments and offer valuable insights into the future of writing Overall this book provides a cohesive and consistent theoretical view of the new realities of digital writing complementing existing literature on the digitalization of writing It is an essential resource for scholars educators and practitioners interested in the intersection of technology and writing
