

SAFETY PRECAUTIONS

▲ WARNING

Follow these safety precautions. Exercise caution when performing service work to prevent serious accidents.

Before performing any service related to the speed controller, or any action requiring or allowing physical contact with electrical power components:

SECURE THE VEHICLE

- Block the front wheels.
- Raise both rear wheels off the ground to a free wheeling position.
- Do not allow anyone to stand in front of or behind the vehicle during service.

RECOMMENDED JACK POINTS

Front: Under the lower arm to frame pivot.

Rear: Frame cross member.

CAUTION

When jacking the rear of car, do not let the jack contact the rear connecting rod.

25M-03-247

DISCHARGE THE SPEED CONTROLLER CAPACITOR

- Turn the main switch to the "OFF" position.
- Turn the tow switch to the "TOW" position. When turned to "TOW," the controller capacitor should discharge within five seconds.
- Disconnect the black wire leads at the negative battery terminal.
- Wait 30 seconds, then attach a 48 volt test light between the positive and negative controller terminals to confirm that the capacitor is discharged (test light will not illuminate).
- If required for component testing, reconnect the battery and turn on main and tow switch for specific measurements after required meters are in place.

web aug 26 2021 non destructive testing ndt investigates the material integrity of everything from machinery to industrial plant infrastructure to buildings but with the distinction of leaving no damage in doing so its value often lies in flagging issues indiscernible otherwise

materials special issue research on non destructive testing in - Jun 23 2022

web jul 10 2023 the integrated destructive and non destructive method can reveal the in situ information of inclusions and give the possible relationship between inclusions and process and material properties full article

non destructive testing ndt services for plants tÜv sÜd - May 23 2022

web tÜv sÜd helps to test your plant s components and systems for safety and compliance tÜv sÜd s plant engineering experts have the technical expertise and experience to support you in carrying out challenging ndt tasks across all relevant fields of applications trained to perform testing in accordance with all international standards

recent advancements in non destructive testing techniques for - May 03 2023

web mar 18 2021 this paper will review and summarize the recent advancements in non destructive testing techniques namely sweep frequency approach ground penetrating radar infrared technique fiber optics sensors camera based methods laser scanner techniques acoustic emission and ultrasonic techniques

non destructive testing of materials in civil engineering - Aug 06 2023

web oct 3 2019 2 non destructive testing in construction modern diagnostic methods are applied to building structural members and structures another major diagnostic field is the non destructive testing of building materials

special issue modern non destructive testing for metallic materials - Aug 26 2022

web aug 31 2023 as editors we are interested in the most recent developments and discoveries in the field of non destructive testing methods these may include new microscopic techniques the latest improvements in x ray and ultrasonic 3d imaging as well as acoustic electromagnetic and thermal inspection methods

a complete guide to non destructive testing nts unitek - Feb 17 2022

web sep 18 2023 non destructive testing ndt is a methodical assessment technique that inspects materials components or structures without causing damage the main advantage of non destructive testing is that it preserves the object s integrity

and minimizes production disruptions

destructive non destructive testing of materials ppt - Mar 21 2022

web jul 11 2018 non destructive testing of material nondestructive testing ndt is a wide group of analysis techniques used in science and technology industry to evaluate the properties of a material component or system without causing damage ndt does not permanently alter the article being inspected it is a highly valuable technique

non destructive techniques used in materials conservation - Oct 08 2023

web non destructive testing can provide information on technique age composition condition and structural components alternatively the conservator may need information on the stability or underlying condition of the object this information is essential in developing the most appropriate treatment proposal for an object visual examination

non destructive testing an overview sciencedirect topics - Apr 02 2023

web non destructive testing ndt is a method of testing materials and components without damaging or destroying them it is suitable in cases where the test sample should remain intact especially in cases of high responsibility parts when 100 control need to be performed and in cases of parts with expensive production processes that justify ndt

what is non destructive testing ndt methods and definition - Oct 28 2022

web non destructive testing ndt is a testing and analysis technique used by industry to evaluate the properties of a material component structure or system for characteristic differences or welding defects and discontinuities without causing damage to
