## Secondary English Paper Singapore:

Mathematics Instructional Practices in Singapore Secondary Schools Berinderjeet Kaur, Yew Hoong Leong, 2021-01-06

This book offers a detailed look into the how and what of mathematics instruction in Singapore. It presents multiple aspects of mathematics instruction in schools ranging from the unique instructional core practices that promote mastery development of conceptual knowledge through learning experiences nurturing of positive attitudes self regulation of learning and development and use of instructional materials for making connections across mathematical ideas developing mathematical reasoning and developing fluency in applying mathematical knowledge in problem solving. The book presents a methodology that is successful in documenting classroom instruction in a comprehensive manner. The research findings illuminate instruction methods that are culturally situated robust and proven to impact student learning. It demonstrates how a unique data source can be analysed through multiple lenses and provides readers with a rich portrait of how the school mathematics instruction is enacted in Singapore secondary schools.

*English in Singapore* provides an up to date detailed and comprehensive investigation into the various issues surrounding the sociolinguistics of English in Singapore. Rather than attempting to cover the usual topics in an overview of a variety of English in a particular country the essays in this volume are important for identifying some of the most significant issues pertaining to the state and status of English in Singapore in modern times and for doing so in a treatment that involves a critical evaluation of work in the field and new and thought provoking angles for reviewing such issues in the context of Singapore in the twenty first century. The contributions address the historical trajectory of English past present and possible future its position in relation to language policy and multiculturalism the relationship between the standard and colloquial varieties and how English can and should be taught. This book is thus essential reading for scholars and students concerned with how the dynamics of the English language are played out and managed in a modern society such as Singapore. It will also interest readers who have a more general interest in Asian studies the sociology of language and World Englishes.
