**Secret Science and the Secret Space Program** Herbert G Dorsey, 2014-11-12 There are areas of science that are off limits to the public and are not taught in our universities The science and technology of anti gravity and extracting energy from space itself was developed in the late 19th and early 20th century by scientists and experimenters like John Worrell Keely Nicola Tesla and Thomas Townsend Brown But today this science is purposely overlooked and regulated to the world of Black Projects The publicly acknowledged space program is but a smoke screen to hide a secret space program overseen by NSA the CIA and a secret branch of the U N that is so secret that even some U S Presidents and Congressional oversight committees are not even aware of it Secret Science and the Secret Space Program will document and provide an in depth look at this secret science and technology and the secret space program that has already colonized Mars built bases on our Moon and other planet s moons and given us the ability to travel to the stars Black science is so far ahead of acknowledged science that this book will seem like science fiction to many who read it [Inside the Secret Space Programs](#) Herbert Dorsey, 2017-02-15 Inside the Secret Space Programs is a continuation of two previous works by the Author Herbert G Dorsey III Secret Science and the Secret Space Program and The Covert Colonization of Our Solar System The previous two books document the progress of antigravity propulsion from the German Vril Society and their Jensietsfugmaschine otherworld flying machine in 1923 and Thomas Townsend Brown s experiments with gravitators at about the same time to the present black projects inside companies like Lockheed Martin Northrup Grumman Boeing Aerospace and North American which create antigravity craft for the Air Force Navy and some private corporations like the secretive Interplanetary Corporate Conglomerate ICC As more information becomes available from persons like Corey Goode William Tompkins and Tony Rodrigues and others who worked in the secret space programs is revealed a better picture of what goes on inside these programs is made possible Sufficient new information has been revealed to warrant a new book on the subject And remarkably the new information not only to a large degree reinforces the information revealed in the previous two books but also adds important information on subjects like where these kilometers long space craft are being built on this planet and how is it being financed If you are interested in learning more about is really going on out in space the covert colonizing militarization manufacturing and mining of Mars other planets moons and asteroids in our Solar system and even in other star systems or you are curious about the technology used and how it works this would be an excellent book to study
