Secrets Of Religion A Temporary Separation Of God And Religion:

Secrets of Religion Mike Bhangu, 2018-07-27 In the name of God prophets were transformed into politicians only some are God's children millions were and are murdered and meaningless rituals were and are synthetically born In the name of God The one world was divided into multiple people are pitted against people segments of the earth are holier than the whole and buildings have more value than the Master Or perhaps I'm mistaken and God truly did inspire the many divisions between religions and the many denominations within Maybe I'm mistaken and God truly did inspire evil things like the crusades the spiritual decimation of the First Nations the Spanish Inquisitions Euro centric motivations the attack on the Americans slavery doomsday predictions and forceful conversions Religions have behaved corruptly and that's led many reasonable people to walk away from religion However as they turned their back they unwittingly walked away from The Great Architect Unable to distinguish between religion and The Formless before examining the other religious doctrines to possibly fill in the blanks created by the corruption they claim that the entirety of religions are out to lunch and this idea of God must also be a false construct Religious corruption has inspired many persons to the cave of the agnostic Some managed to crawl back out and others are still stuck in the darkness Until a Divine intervention or thoughts reach an absolute conclusion the cave will remain a truth within the mind of the betrayed To provide the first is not in my power but with the second I think I can help Thoughts at a near end tend to interpret the corruption as separate from the heavens and the division provides a much more reasonable perspective Religious practices and doctrine examined after the partition have the potential to reveal The Great Architect Secrets of Religion provides ample examples of the corruption and I'm hoping those examples will frame the religious ethos that might not be truthful Secrets of Religion is a politically incorrect journey to determine what is what and what is God oriented before and beyond the many religious institutions Here you'll discover what the different religions do not want you to know *Earth's Secret Corridor* Gregory Strausbaugh, 2007-02 This is the story of a man called to serve mankind and his loss of innocence It is a story of courage in the face of evil and its consequences It is a story of what is right in the world and what has gone terribly wrong It is a story of cataclysm so terrible so unique it can only be seen through Earth's Secret Corridor *Secret's of the False Prophet's Fame, Fortune, and Success* T Moss, 2008-04

Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 11: Khayyami Robaiyat: Re-Sewing the Tentmaker's Tent: 1000 Bittersweet Wine Sips from Omar Khayyam's Tavern of Happiness Mohammad H. Tamdgidi,2024-10-25 Omar Khayyam s Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a 12 book series of which this book is the 11th volume subtitled Khayyami Robaiyat Re Sewing the Tentmaker s Tent 1000 Bittersweet Wine Sips from Omar Khayyam s Tavern of Happiness Each book independently readable can be best understood as a part of the whole series In Book 11 having shared the three parts of the Robaiyat attributed to Khayyam in the Books 8 9 and 10 of the series Tamdgidi offers the entire set of the 1000 quatrains including the Persian originals and his new English verse translations for each The poems comprising Khayyam s songs of doubt hope and joy are organized according to the three phased method of inquiry he introduced in his philosophical writings respectively addressing the questions Does Happiness Exist What Is Happiness and Why Does or Can Happiness Exist When Khayyam discussed the three phased method of inquiry in his treatise Resalat fi al Kown wa al Taklif Treatise on the Created World and Worship Duty he noted an exception to the rule of asking when studying any subject whether it exists what it is and why it exists or can exist He distinguished between things objectively existing independent of the human mind and those created by the human mind The normal procedure applies to the former but for products of the human mind he advised the procedure must be modified to asking first what something is then whether it exists and then why it exists or can exist This is because for products of the human mind such as created works of art we would not know whether something exists and why it exists unless we first know what it is To illustrate his point he used the example of the mythical bird Anqa Simorgh in Persian or the Phoenix in English He argued that only when we know what the metaphor stands for would we be able to say whether it exists say in a work of art or even as a person represented by it and why it exists or can exist Khayyam s elaboration implies that one has to make a distinction between objective and human objectified realities which implies that for some objects such as happiness we in fact confront a hybrid reality where aspects of it may be externally conditioned but other aspects being dependent on the human will Once we realize the significance of Khayyam s point then we appreciate that his Robaiyat can also be regarded as a way of poetically portraying and advancing human happiness its poetic Wine being not just reflective but also generative of the happiness portrayed By way of his poetry therefore Khayyam has offered a severe critique of the then prevalent fatalistic astrological worldviews blaming human plight on objective conditions in favor of a conceptualist view of reality in which happiness can be achieved despite the odds depending on the creative human agency itself being an objective force Tamdgidi further shows that the triangular geometry of the logic governing Khayyam s

Robaiyat the numerical values of whose three sides are proportional to the Grand Tent governing Khayyam's birth chart further supports the view expressed in Khayyam's own quatrains that for him his Robaiyat poetically represented the tent of which he regarded himself to be a tentmaker revealing another key explanation for his pen name The geometric structure of a tent proportional to the Grand Tent of Khayyam's chart as well as the metaphor of the Robaiyat as Simorgh songs are hidden in the deeper structure of Khayyam's 1000 piece solved puzzle the same way he embedded his own triangular golden rule in the design of the North Dome of Isfahan Khayyam's Robaiyat are his Simorgh's millennial rebirth songs served in his tented tavern as 1000 sips of his bittersweet Wine of happiness

An Immigrant Bishop Patrick W. Carey, 2022-01-07 An Immigrant Bishop is a revised examination of the Irish intellectual roots of Bishop John England s American pastoral works in the diocese of Charleston South Carolina 1820 1842 The text focuses on his political philosophy and his theology of the Church both of which were influenced by the Enlightenment and a theological not a political Gallicanism As the study demonstrates we now know more about England s intellectual life prior to his immigration than we do about any other Catholic immigrant from Ireland Neither Peter Guilday s monumental two volume biography 1927 of England nor any subsequent scholarly study of England has uncovered and analyzed as this book does England s many unpublished and published writings in Ireland his explicitly authored texts his published speeches before the Cork Aggregate meetings and his pseudonymous articles in the *Cork Mercantile Chronicle* between 1808 when he was ordained and 1820 when he emigrated to the United States John England 1786 1842 the first Catholic bishop of Charleston was the foremost national spokesman for Catholicism in the United States during the years of his episcopacy and the primary apologist for the compatibility of Catholicism and American republicanism He was also the first Catholic bishop to speak before the United States Congress and the first American to receive a papal appointment as an Apostolic Delegate to a foreign country in this case to negotiate a concordat with President Jean Pierre Boyer of Haiti He is considered the father of the Baltimore Provincial Councils and the nineteenth century American Catholic conciliar tradition He was also the only bishop in American history to develop a constitutional form of diocesan government and administration Among other things he was the first cleric to establish a diocesan newspaper that had something of a national distribution England s contribution to the early formation of an American Catholicism has been told many times before but he has the kind of creative mind and episcopal leadership that demands repeated re considerations
