Bealissings Van: Die Hooggeregshof Van Suid-Afrika, Die Suidwes-Afrika Afdeling, Die Hoërhof Van Rhodesië*, 2011 *Corporate Governance* Tom Wixley, 2015-11-30 Corporate Governance Fourth Edition continues to inform on all aspects of corporate governance while keeping readers up to date with the latest developments It is now established as the leading South African work on the subject The past five years since publication of the third edition has seen a number of changes in the application of corporate governance in South Africa and beyond Locally we have seen the application of the 2008 Companies Act and in the United Kingdom a new Corporate Governance Code has been introduced Significant developments have taken place in the area of corporate reporting via the appearance of an International Integrated Reporting Framework widening the scope of the traditional annual report The Fourth Edition deals with these changes Key additions are chapters on types of entities and a comparison of local and international practice Corporate Governance was first published in 2002 shortly after the publication of the original King Report to help explain the need for corporate governance in the private and public sectors and to provide South African executives and professionals with a practical framework to establish governance systems and practices in their own organisations **Local Government Finance** Dirk Brand, 2016-05-22 Local Government Finance does not follow the conventional operational approach to local government finance which typically focuses on issues such as revenue collection budgeting performance auditing and accounting and debt administration Instead it offers a broader systemic and multi level perspective by assessing the governance model of local government finance For this purpose the authors compare and contrast the South African model with the international experience The publication thus makes a significant contribution to analysts and scholars in their sense making and knowledge production endeavours in this field **International Handbook of Public Procurement** Khi V. Thai, 2017-09-25 Since the 1990s government at all levels is under increasing pressure to do more with less However despite the U S government spending about 15 to 20 percent of its GDP on contracts for goods and services there is a paucity of reference books for public procurement officials and very few textbooks for courses on the subject Filling this void the International Handbook of Public Procurement provides the knowledge necessary to understand how procurement works and how to improve the cost effectiveness of procurement systems Taking a multidisciplinary

approach the book focuses on the managerial economic political and legal aspects of this topic It begins with a conceptual framework and highlights various reforms occurring in certain countries By examining these improvements readers are able to apply this knowledge to their own strategies The next section presents selected cases that illustrate the public procurement process examining systems in various nations including Germany China South Africa Cambodia Uganda and Estonia The book also discusses the rise of electronic procurement systems E procurement and reviews the benefits of these efficient systems Other topics presented in this comprehensive volume include practical discussions on contract negotiations bidding price strategies and cost analysis and an insightful chapter on the market s response to contract award announcements A virtual encyclopedia from numerous international experts this book was assembled by Khi V Thai Professor at Florida Atlantic University and Editor of the Journal of Public Procurement Dr Thai has provided technical assistance in the area of public procurement to governments across the world Empowering those on all sides of the issue this volume dispenses advice valuable to government officials and contractors as well as providing a comprehensive text for public administration students

Srivastava, A. Narula, 2006-01-16 The genesis of the volume *Plant Biotechnology and Molecular Markers* has been the occasion of the retirement of Professor Sant Saran Bhojwani from the Department of Botany University of Delhi For Professor Bhojwani retirement only means relinquishing the chair as being a researcher and a teacher which has always been a way of life to him Professor Bhojwani has been an ardent practitioner of modern plant biology and areas like Plant Biotechnology and Molecular Breeding have been close to his heart The book contains original as well as review articles contributed by his admirers and associates who are experts in their area of research While planning this contributory book our endeavour has been to incorporate articles that cover the entire gamut of Plant Biotechnology and also applications

of Molecular Markers Besides articles on in vitro fertilization and micropropagation there are articles on forest tree improvement through genetic engineering Considering the importance of conservation of our precious natural wealth one article deals with cryopreservation of plant material Chapter on molecular marker considers DNA indexing as markers of clonal fidelity of in vitro regenerated plants and prevention against bio piracy A couple of write ups also cover stage specific gene markers DNA polymorphism and genetic engineering including raising of stress tolerant plants to sustain productivity and help in reclamation of degraded land

Unwanted Visionaries Sergey Radchenko, 2014-01-07 Mikhail Gorbachev's relations with the West have captured the imagination of contemporaries and historians alike but his vision of Soviet leadership in Asia has received far less attention The failure of Gorbachev's Asian initiatives has had dramatic consequences by the late 1980s the Soviet Union was in full retreat from Asia and since the Soviet collapse Russia has been left on the sidelines of the Pacific century In this exceptionally wide ranging and deeply researched book Sergey Radchenko offers an illuminating account of the end of the Cold War in the East tracing the death of Soviet ambitions in Asia Radchenko shows that Gorbachev began with big gestures of which the most important was his initiative in Vladivostok in July 1986 the opening salvo of the Soviet charm offensive in Asia Pacific The problem Radchenko points out was that no one in Asia bought into Gorbachev's vision If the Soviets had realized earlier that they needed Asia more than Asia needed them they might have played a much more important role there Instead China was largely misunderstood early gains in India were squandered Japan was ignored or condescended to and the Korean scenario played out in ways most unfavorable to Russia Radchenko captures all of this in his compelling narrative shedding important new light on many key players including Gorbachev Deng Xiaoping Margaret Thatcher Boris Yeltsin and George H W Bush among others Based on archival research in Russia China Mongolia India the United States Britain and numerous European countries and on interviews with former policy makers in a dozen countries *Unwanted Visionaries* presents a deftly narrated and penetrating portrait of the Soviet failure in the East with a wealth of valuable insight into Asia today
