European Union Research Policy Veera Mitzner,2020-06-01 This book describes the emergence of research policy as a key competence of the European Union

EU It shows how the European Community EC the predecessor of the EU which initially had very limited legal competence in the field progressively developed a solid policy framework presenting science and research as indispensable tools for European economic competitiveness and growth In the late 20th century Western Europe hungry for growth concerned about the American technological lead and keen to compete in the increasingly open international markets the argument for a joint European effort in science and technology seemed plausible However the EC was building its new functions in an already crowded field of European research collaboration and in a shifting political context marked by austerity national rivalries new societal and environmental challenges and emerging ambivalence about science This book conveys the contested history of one of the EU s most successful policies It is a story of struggle and frustration but also of a great institutional and intellectual continuity The ideational edifice for the EC EU research policy that was put in place during the 1960s and 1970s years proved remarkably robust Its durability enabled the rapid takeoff of the European Commission s initiatives in the more favorable political atmosphere of the early 1980s and the subsequent expansion of the EU research funding instruments and programs that permanently transformed the European research landscape Combat Films Steven Jay Rubin, 2011-07-25 This critical text offers a behind the scenes look at fifteen of the most important American war films of the last 60 years Based on original interviews and archival research and featuring rare photographs this book covers films considered unusually realistic for the genre The original edition 1981 covered war films through World War II while the present expanded edition includes seven new chapters covering the Civil War the American gunboat presence in China in the 1920s the Korean War the Vietnam War the fighting in Mogadishu in 1993 and the war in Iraq *Creating America* ,1995 Each unit includes guided reading vocabulary building skillbuilder practice geography applications primary sources literature selections reteaching activities enrichment activities for gifted and talented students history workshop resources and answer key **Bookseller** ,1871 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series Education Outlook ,1932
