 Remembering the Cold War examines how more than two decades since the collapse of the Soviet Union Cold War legacies
 continue to play crucial roles in defining national identities and shaping international relations around the globe Given the
 Cold War s blurred definition it has neither a widely accepted commencement date nor unanimous conclusion what is to be
 remembered This book illustrates that there is in fact a huge body of remembrance and that it is more pertinent to ask what
 should be included and what can be overlooked Over five sections this richly illustrated volume considers case studies of Cold
 War remembering from different parts of the world and engages with growing theorisation in the field of memory studies
 specifically in relation to war David Lowe and Tony Joel afford careful consideration to agencies that identify with being
 victims of the Cold War In addition the concept of arenas of articulation which envelops the myriad spaces in which the
 remembering commemorating memorialising and even revising of Cold War history takes place is given prominence

Balancing Risks Jeffrey W. Taliaferro, 2019-06-30 Great powers often initiate risky military and diplomatic inventions in far off peripheral regions that pose no direct threat to them risking direct confrontation with rivals in strategically inconsequential places Why do powerful countries behave in a way that leads to entrapment in prolonged expensive and self defeating conflicts Jeffrey W Taliaferro suggests that such interventions are driven by the refusal of senior officials to accept losses in their state s relative power international status or prestige Instead of cutting their losses leaders

often continue to invest blood and money in failed excursions into the periphery Their policies may seem to be driven by rational concerns about power and security but Taliaferro deems them to be at odds with the master explanation of political realism Taliaferro constructs a balance of risk theory of foreign policy that draws on defensive realism in international relations and prospect theory in psychology He illustrates the power of this new theory in several case narratives Germany's initiation and escalation of the 1905 and 1911 Moroccan crises the United States involvement in the Korean War in 1950 52 and Japan's entanglement in the second Sino Japanese war in 1937 40 and its decisions for war with the U S in 1940 41
