### **Fragments and Meaning in Traditional Song**

Mary-Ann Constantine, Gerald Porter, 2003-08-07 This book takes a radical approach to the study of traditional songs Folk song scholarship was originally obsessed with notions of completeness and narrative coherence even now long narratives hold a privileged place in most folk song canons Yet field notebooks and recordings and increasingly publications overwhelmingly suggest that apparently broken and drastically shortened versions are not perceived as incomplete by those who sing them Dealing with a wide range of traditions and languages this study turns the focus on these dog ends of oral tradition and looks closely at how very short texts convey meaning in performance by working the audience's knowledge of a highly allusive idiom What emerges is the tenacity of meaning in the connotative and metaphorical language of traditional song and the extraordinary adaptability of songs in different cultural contexts Such pieces have a strong metonymic force they should not be seen as residual last leaves of a once complete tradition but as dynamic elements in the process of oral

transmission Not all song fragments remain in their natural environment and this book also explores relocations and dislocations as songs are adapted to new contexts a ballad of love and death is used to count pins in lace making song snippets trail subversive meanings in the novels of Charles Dickens Because they are variable and elusive to dating songs have had little attention from the literary establishment the authors show both how certain critical approaches can be fruitfully applied to song texts and how concepts from studies in oral traditions prefigure aspects of contemporary critical theory Like the songs themselves this book crosses and recrosses the perceived divide between the literary and the oral Coverage includes English Welsh Breton American and Finnish songs Soniou breiz-izel.
