Smart Economy in Smart Cities

T. M. Vinod Kumar,2016-08-25 The present book highlights studies that show how smart cities promote urban economic development The book surveys the state of the art of Smart City Economic Development through a literature survey The book uses 13 in depth city research case studies in 10 countries such as the North America Europe Africa and Asia to explain how a smart economy changes the urban spatial system and vice versa This book focuses on exploratory city studies in different countries which investigate how urban spatial systems adapt to the specific needs of smart urban economy The theory of smart city economic development is not yet entirely understood and applied in metropolitan regional plans Smart urban economies are largely the result of the influence of ICT applications on all aspects of urban economy which in turn changes the land use system It points out that the dynamics of smart city GDP creation takes different paths which need further empirical study hypothesis testing and mathematical modelling Although there are hypotheses on how smart cities generate wealth and social benefits for nations there are no significant empirical studies available on how they generate urban economic development through urban spatial adaptation This book with 13 cities research studies is one attempt to fill in the gap in knowledge base

Metrics and Models for Evaluating the Quality and Effectiveness of ERP Software Muketha, Geoffrey Muchiri,Micheni, Elyjoy Muthoni,2019-07-26 Enterprise resource planning ERP is a class of integrated software that uses software technologies to implement real time management of business processes in an organization ERPs normally cut across organizations making them large and complex Software researchers have for many years established that complexity affects software quality negatively and must therefore be controlled with novel metrics and models of evaluation that can determine when the software is at acceptable levels of

quality and when not Metrics and Models for Evaluating the Quality and Effectiveness of ERP Software is a critical scholarly publication that examines ERP development performance and challenges in business settings to help improve decision making in organizations that have embraced ERPs improve the efficiency and effectiveness of their activities and improve their return on investments ROI Highlighting a wide range of topics such as data mining higher education and security this book is essential for professionals software developers researchers academicians and security professionals **Africa's Railway Renaissance** Tim Zajontz, Pádraig Carmody, Mandira Bagwande, Anthony Leysens, 2023-07-28 This book investigates the history political economy and spatiality of Chinese railway projects in Africa It examines the financial governance of Sino African railway projects their socio cultural political and economic effects as well as the regional dimension of Africa's new railway architecture and its function within China's Belt and Road Initiative Leading and emerging scholars from Africa China Europe and the Americas offer interpretations through politicoeconomic historical geographical and post colonial conceptual lenses Case studies on projects in Angola Ethiopia Kenya Nigeria Tanzania and Zambia offer an empirically rich and cross disciplinary picture of Sino African railway developments at the micro meso and macro levels Regional analyses on West and East Africa expose persistent obstacles to the regional integration of Africa's railways The volume outlines opportunities and challenges related to Africa's railway renaissance in the post COVID 19 global political economy and will be of great interest to academics students and practitioners interested in Africa China relations and their developmental effects or in the politics of infrastructure spatial governance and the political economy of transport *The Europa Directory of International Organizations 2020* Europa Publications, 2020-08-26 The Europa Directory of International Organizations 2020 serves as an unequalled one volume guide to the contemporary international system Within a clear unique framework the recent activities of all major international organizations are described in detail Given alongside extensive background information the reader is able to assess the role and evolving functions of these organizations in today's world The contact details key personnel and activities of more than 2 000 international and regional entities have again been thoroughly researched and updated for this 20th edition Highlights in this edition include a fully revised Who's Who section with biographical details of the key players in the international system the response of the international community to crises and conflicts throughout the world introductory essays written and updated by experts in their field which consider topics including global environmental governance the international criminal justice system international humanitarian co operation and governance of the global economy **SouthSouth Trade and Finance in the Twenty-First Century** Omar Dahi, Firat Demir, 2016-10-10 This book is a contribution to the international trade and economic development literature and is based on a decade of joint research and collaboration on South South economic relations Given the increasing focus on the economic power of some developing countries for example the 2013 Human Development Report's Rise of the South it is particularly appropriate and timely NP The book's findings are based on rigorous empirical examination of South South trade

and finance and it provides an even handed assessment from the perspective of long term development goals rather than mainstream welfare approaches or ideological theoretical worldview NP This work directly engages with the new developmentalism literature that has challenged the neoliberal orthodoxy and its policy approach which focuses on liberalization privatization and deregulation It also engages with literature by examining whether the increase in South South trade facilitates or inhibits the possibilities for developmentalist economic policy in developing countries The book shows concrete and positive results from South South trade particularly related to industrial development and also documents how South South trade is dominated by large developing countries and that South South trade liberalization may be counterproductive

The Emperor's New Road Jonathan E. Hillman, 2020-09-29 A prominent authority on China's Belt and Road Initiative reveals the global risks lurking within Beijing's project of the century China's Belt and Road Initiative is the world's most ambitious and misunderstood geoeconomic vision To carry out President Xi Jinping's flagship foreign policy effort China promises to spend over one trillion dollars for new ports railways fiber optic cables power plants and other connections The plan touches more than one hundred and thirty countries and has expanded into the Arctic cyberspace and even outer space Beijing says that it is promoting global development but Washington warns that it is charting a path to global dominance Taking readers on a journey to China's projects in Asia Europe and Africa Jonathan E Hillman reveals how this grand vision is unfolding As China pushes beyond its borders and deep into dangerous territory it is repeating the mistakes of the great powers that came before it Hillman argues If China succeeds it will remake the world and place itself at the center of everything But Xi may be overreaching all roads do not yet lead to Beijing
