Cavity cooling system

Our cavity cooling system effectively pulls heat away from the outside of the oven. This unique process keeps the door, controls and handle cool, while helping to protect surrounding cabinets from heat damage.

Twin circulating fans

This feature allows a greater volume of air to be distributed around the oven, putting more moisture in your food and providing balanced heat distribution. This ultimately means better cooking results – especially when baking.

Storage compartment

Store extra cookware in the storage compartment to free up space in other areas of your kitchen.

Triple glazed cool touch door

Three layers of glazing keep heat in so your food cooks quickly and efficiently. Triple glazing also limits the amount of heat that can escape, so the door remains cool to touch. This is a handy safety feature for little fingers.

Easy to clean

The easy clean interior, removable door, and removable side racks allow for food particles to be easily wiped away.

Design

This oven has been designed to compliment all of the cooking appliances in the Technika range.
