The Man Who Wrote the Teddy Bears' Picnic J. J. Kennedy, 2011-11-04 A first biography of one of Britain s leading lyric songwriters The Man Who Wrote The Teddy Bears Picnic tells the story of Irish born Jimmy Kennedy one of the last and arguably the finest of the professional Tin Pan Alley songwriters of the pre Beatles golden age of popular song A fascinating insight into the life of a man who rose from small town beginnings to become for fifty years the lyrical and musical power behind some of the twentieth century s top popular song entertainers from the days of Variety right up to The Beatles era Jimmy had something like 30 No 1 hits to his credit worldwide but is little known outside of music business circles The book written by his younger son ex journalist J J Kennedy sets out to remedy this omission and celebrates his contribution to the genre Though his romantic ballads like Red Sails in the Sunset continue to be played all round the world Jimmy is possibly best remembered today for the Cokey Cokey which he adapted from a Canadian folk song in 1943 and The Teddy Bears Picnic which gave magical children s words to an old American tune Well written and easy to read the book serves as an excellent historical record of pop and is full of facts observations and authoritative comment on the cut and thrust village that was Tin Pan Alley It captures the bustle of the

place and its almost industrial approach to song creation. It paints a colourful picture of some of the leading characters of the period and exposes the double dealing greed and downright exploitation prevalent in that world. But the book also creates a romantic mysticism around the characters who dashed around in Denmark street peddling their talent so often in vain. It transports you to smoky little rooms with music coming from every corridor and it tells the story in black and white like an old Hollywood movie. Swimming among all these sharks is the unlikely figure of Jimmy Kennedy dapper and charming modest and artistically fine tuned yet steely resilient and highly commercial. A man who could spot the financial worth of his work write to order sometimes in lightning quick time and stand his ground when he knew he had a hit. He was in fact a one man hit machine. But it wasn't always one man and the book illuminates the winning partnerships with Michael Carr, Will Grosz et al. One of the key strengths of the book is its nostalgia appeal and has some wonderful anecdotes including recollections from Terry Wogan, Val Doonican and others and non musical people such as Denis and Margaret Thatcher. All in all a very intelligent book and one which will become a work of reference for anyone studying the popular music art form of the twentieth century.

Talk Box Lyn Dawes, Claire Sams, 2017-06-14. Talk Box supports teachers implementing the new curriculum who are looking for fresh ideas with a focus on teaching talk skills encouraging discussion and developing articulate children. It sets out different types of teaching involving children learning collaboratively through discussion with peers and centres on step by step lesson plans to develop hidden potential across the entire classroom. At the heart of the lesson plans is the talk box a collection of interesting objects which provide a focus for class discussion and where the activities are based on these linked ideas. Young children need their teachers to help them make sense of the world. The most effective medium for explaining discussing describing with children is talk. Children learn very well from one another when taught how to do so and are a good resource for one another in the classroom. Children may be able to talk but they are not often aware what sort of talk can help them to get the best from their education. Direct teaching of essential talk skills and understanding is straightforward and should be undertaken in school classrooms. The numerous lesson plans included in this book are each built around specific learning objectives for speaking and listening and cover subjects such as literacy numeracy science citizenship ICT and Computing. Each lesson includes a resources list and photocopiable worksheets and range from whole class to small group work. This book will help you teach children to engage in the educationally effective kind of discussion known as Exploratory Talk where everyone's viewpoint is considered opinions are justified with reasons and decisions are made together. This new edition includes updated curriculum links new research findings a home school link section and contain additional EAL and SEN materials.
