

## Teeth Whitening Consent Form

Tooth whitening is a state of the art procedure designed to whiten the teeth to their optimum natural brightness. We are planning to use Carbamide Peroxide Gel [5%/20%]. The amount of whitening varies from patient to patient and cannot be predicted exactly. In general, yellow or brown teeth, teeth with extrinsic staining from tea, coffee or red wine, and darkened monochromatic teeth are easier to whiten.

### TOOTH WHITENING AWARENESS:

---

- As with any treatment there are benefits and risks. The benefit is that teeth can be whitened fairly quickly in a simple manner. The risk involves the continued use of the gel for an extended period of time such as a few years. Research indicates that using peroxide to whiten teeth is safe. There is new research indicating the safety for use on the soft tissues (gingivae, cheek, tongue, throat). The long-term effects are as yet unknown. Although the extent of the risk is unknown, acceptance of treatment means acceptance of risk.
- Fillings and crowns do not change colour and therefore may need replacing afterwards.
- Most patients achieve a change within [6-7 days].
- Sensitivity may result after a few days. This is usually slight and temporary. If this should occur refrain from using the whitening treatment for 1 day or apply the soothing gel into the tray that you will be given.

### RESPONSIBILITIES:

---

- Avoid tobacco, tea, coffee, red wine and teeth staining foods such as tomato paste, food colourants and deeply coloured toothpastes and mouthwashes for at least [45 minutes] after the whitening procedure.
- Proper oral hygiene must be maintained including brushing twice daily and the use of floss.
- Keep your recall appointments with your dentist.
- Do not use the whitening trays if you are pregnant. There have been no reports of adverse reactions, but long term clinical effects are unknown.
- Wear the tray overnight or for a minimum of [3 Hrs per day] (carbamide peroxide). If using hydrogen peroxide wear for a minimum of 30 minutes per day with a view to increasing it to a maximum of [30 minutes per day].

### GUARANTEES:

---

- There are no guarantees to the degree of tooth whitening.
- The amount of teeth whitening depends on the individual and the reason for discolouration.
- Some teeth do not whiten evenly particularly around gum recession on the lower premolar tooth. The enamel whitens well but the dentine does not whiten as well.
