

Philosophy Paper

1. Every paper you write for me will be based on the same basic assignment: state a thesis and defend it, employing textual citations and inferences to support that thesis. That is, you must stake out a position that you take to be the most plausible then offer text-based and illustrative, reasoned arguments for that view.

Two kinds of papers you do not want to write: first, the “book report.” Although an explanatory synopsis of the author’s position is a critical and essential aspect of a philosophy paper, this exposition should not be mere restatement of the text itself. “Book report” essays simply regurgitate the language and claims of the author without attempting to explain the reasons for or presuppositions of those claims. They therefore demonstrate no attempt to comprehend the ideas expressed by the readings. While you will **always** need to provide a synopsis of the argument your essay addresses, note that a synopsis, rather than restating the text, offers a concise presentation of the relevant arguments of the text, one that explicates/illustrates their presuppositions and significance. A book report reiterates; philosophical synopsis contextualizes and illuminates. Often a thesis is nothing more than an argument about how a particularly knotty philosophical passage should best be understood.

The other paper you do not want to write is “thoughts on topic X,” or “meditations on X,” or “remarks on X.” It will not do to simply string together various reflections you may have on a given topic, even if in the course of doing this you embrace various claims and offer some reasons for your views before moving to the next reflection. If the paper is responding to a given topic, it **must** address that topic squarely and directly. Paper topics are not suggestions or launching points for your own theory; they are crafted specifically to foster engagement with a particular philosophical problem. Do not try to “go around” the problem by subordinating it to what you take to be a more relevant problem (it rarely is). Whether you respond to a prompt or are asked to create your own thesis, the contents of the paper should be selected and organized so as best to defend that central claim. No matter how seemingly brilliant, mere reflections do not constitute a persuasive philosophical argument.

2. So the paper should state a central thesis and defend it. In doing so, it should adhere to the following clarifications:

A) It should start with a clear statement of the thesis. This need not be the very first sentence, but it should almost always come in the first paragraph. Many papers never give a precise statement of the thesis at all. They leave the reader guessing the author’s position. It may seem obvious to you what your position is; it won’t be obvious to the reader. Other papers give a clear statement of the thesis, but not until the last paragraph of the paper. (“Oh! Is that what the author was driving at?!”) This may be a dramatic way to structure a mystery novel but it is a poor way to structure an argumentative paper. The reader’s **job** is not to figure out what your view is but to evaluate how good a job you do of defending it.

Writing Philosophy Papers Zachary Seech, Andrew Kania, 2024-08-28 This sixth edition of Writing Philosophy Papers updates and expands one of the most popular guides to philosophical writing assignments for undergraduate students. Written in a clear straightforward style the book covers everything from time management to the difference between i.e. and e.g. The heart of the book is devoted to how to write a thesis defense paper with chapters on the structure of a strong paper, the process of writing and revising, matters of style and usage, and scholarly citation. This advice is illustrated with concrete examples throughout, including a complete thesis defense paper written and formatted according to the book's recommendations. The book also covers how to take good notes from various kinds of philosophical sources, how to write other commonly assigned kinds of papers, and how to study for and take a philosophy exam. A chapter on doing philosophical research contains practical advice on how to discover and access the most helpful sources for a philosophical research paper or annotated bibliography. Because virtually every philosophy assignment requires a basic grasp of arguments, the book ends with a chapter introducing some basic concepts and skills for reasoning well. The heart of the sixth edition has been revised and restructured to lead students even more clearly through the process of drafting, revising, and formatting a thesis defense paper. This new edition also includes an updated, completely revised, and expanded chapter on citing sources, giving equal consideration to print and online sources; an updated, completely revised, and expanded chapter on doing philosophical research, focused on how to find the most helpful sources for completing a philosophical research paper or annotated bibliography; updated, revised, and greatly expanded advice on writing style and usage; a completely revised and expanded treatment of good reasoning, with a new discussion of inductive and abductive reasoning; and new advice on how to take good notes and how to study for and take philosophy exams.

Philosophy of Religion Hubert J. Richards, 2000 This second edition of *Philosophy of Religion* expands upon the issues raised in the first edition. It has been revised to meet the content requirements of the philosophy modules of the new AS and A level specifications for religious studies.

Kerfoot, 1995 This new edition of Aspen's bestselling book *The Nurse as Executive* has been thoroughly revised and updated to reflect the significant changes in nursing management The nurse executive's role as a member of the executive team is examined as well as the nurse executive's role in health care issues such as quality outcomes team building and cost containment Organizing the book around the new resource driven management model rather than the goal driven management model makes this book unique and distinguishes it from other management texts **Living Philosophy** Lewis Vaughn, 2023-07-21 A vibrant and historical introduction to the philosophical ideas that shape our world today **Standing Up for Philosophy** Joshua Alexander, Jonathan M. Weinberg, 2025-04-24 In *Standing up for Philosophy* Jonathan Weinberg and Joshua Alexander seek to radically reformulate the debate over armchair philosophy Have results in experimental philosophy shown thought experiments to be so problematic that they should be abandoned While experimental philosophy seems to indicate that our verdicts on thought experiments are vulnerable to demographic variation and unconscious contextual influences philosophers have long struggled to articulate the pessimistic upshot from these vulnerabilities to error Weinberg and Alexander argue that these debates have been misframed in traditional epistemic terminology such as whether the method of cases is sufficiently reliable to provide knowledge The trouble with this framework is that it can't reckon with experimental philosophy's dirty little secret namely that the method of cases is probably not in such a bad way that it can't sometimes be put to good use somewhere and somehow The real question is not what's so wrong with the method of cases that we shouldn't use it at all but what methodological advantages can experimental philosophy bring to the method of cases that can't be gained while we remain seated in our philosophical armchairs Answering this requires us to turn our attention from questions of epistemic normativity to questions of methodological rationality When philosophers start engaging seriously with the ways in which experimental methods can augment more traditional philosophical methods we can hope for real philosophical progress Weinberg and Alexander demonstrate that this is what standing up for philosophy is all about giving ourselves a richer set of methodological resources that can be used to answer the kinds of questions that philosophers have been interested in asking all along [What is this thing called Philosophy?](#) Duncan Pritchard, 2015-12-22 What is this thing called Philosophy is the definitive textbook for all who want a thorough introduction to the field It introduces philosophy using a question led approach that reflects the discursive nature of the discipline Edited by Duncan Pritchard each section is written by a high profile contributor focusing on a key area of philosophy and contains three or four question based chapters offering an accessible point of engagement The core areas of philosophy covered are Ethics Political Philosophy Aesthetics Epistemology Philosophy of Mind Metaphysics Philosophy of Science Philosophy of Religion The Meaning of Life The accompanying Routledge companion website features valuable online resources for both instructors and students including
