Leaves from the Journal of Our Life in the Highlands, 1848-1861 & More Leaves, 1862-1882 Queen Victoria, 2024-04-24 This solitude, the romance and wild loveliness of everything here all make beloved Scotland the proudest, finest country in the world. Queen Victoria, 1819-1901 wrote a diary nearly every day of her life. Originally intended for private circulation, later expanded to appeal to a wider public, these published diary entries cover not only the family holidays at Balmoral Castle in the Scottish Highlands, which the Queen and Prince Albert enjoyed up until his death in 1861, but also the Queen's journeys as sovereign and as Royal Tourist around Scotland, Ireland, and other regions within the British Isles. The books offer intimate views of the most important woman of her time as she shares her love of her family and of the Highlands, and demonstrates her intense interest in all corners of her realm and in the lives of individuals from all classes of society. Queen Victoria's writings about her life and travels in Scotland and the British Isles are fascinating and entertaining to read. Extremely popular when they first appeared, they shaped Victoria's image in the nineteenth century, and their impact on public perceptions of the monarchy continues to this day. This volume includes complete and authoritative texts of the two journals, an introduction and explanatory endnotes providing historical and cultural contexts, and new information about the Queen's work as author and editor, maps of the Queen's travels, a Cast of Characters briefly identifying many of the individuals the Queen meets or mentions, a Glossary of unfamiliar terms, and Suggestions for Further Reading.

To better understand how the public health and health care communities can meet the challenges of serving an increasingly diverse population, the Roundtable on Health Literacy conducted a public workshop on facilitating health communication with immigrant, refugee, and migrant populations through the use of health-literate approaches. The goal of the workshop was to identify approaches that will
