The Glocalization of Early Childhood

Curriculum Philip Hui Li, Jennifer J. Chen, 2023-02-03 With empirical evidence and theoretical critique this book unveils the myths and debates e g child centeredness versus teacher directedness about early childhood curricula revealing their unique social cultural and historical roots Analyzing globally advocated early childhood curricula and ideologies such as the developmentally appropriate practice the child centered approach constructivism and globalized childhood this book argues that the direct adoption of these contextually bound approaches in local environments may be inappropriate if social and cultural compatibility is lacking The authors then examine how early childhood curricula may be implemented in a hybrid form Featuring case studies from American and Chinese contexts this book offers insights and recommendations for the future development and redeployment of early childhood curriculum studies and practices in a post truth era This volume serves as a valuable resource for scholars and students of early childhood education and comparative education as well as for key education stakeholders
