Managing (e)Business Transformation Ali Farhoomand, M. Lynne Markus, Guy Gable, Shamza Khan, 2021-01-21 Managing e Business Transformation comprises text and cases designed to show students how a business can be transformed into an internetworked enterprise where IT infrastructures are used to link customers suppliers partners and employees to create superior economic value The book is written based on the premise that integrating internet technologies throughout the value chain is crucial to building and managing customer relationships Importantly it underscores the centrality of basic business and economic principles within the context of a networked

environment The book builds on established business and economic theories concepts and fundamentals to show that e business will soon be synonymous with business The book takes a strong managerial perspective especially popular with MBA students to argue that the internet is simply an enabling technology which allows firms to build the infrastructure needed to operate in an evolving business world The application of theory concepts is emphasized throughout and contains a range of international case studies enhance the learning experience This book is a must for all students studying e business strategy at undergraduate MBA and postgraduate level Also available is a companion website with extra features to accompany the text please take a look by clicking below <http://www.palgrave.com/business/farhoomand/index.asp>

Internet Strategies D. Stroud,1998-06-19 The Internet challenges many basic assumptions about the structure of business processes channels of distribution product marketing competitiveness and resource management It places new demands on organisations and those determining strategy and direction There are tools and concepts that can enable managers to face these challenges and give them some appreciation of the consequences of this new technology In this book Dick Stroud looks at the business implications of the internet at a strategic level Without going into technical details he looks at what is driving the development of the internet and how it might impact on a number of aspects of an organisation's operations He then defines strategies that can be adopted and outlines the benefits and weaknesses of each providing the diagnostic tools to enable managers to make decisions about their own businesses **ECAI 2010** Helder Coelho,Rudi
