

Oracle Database 11gR2 Upgrade Companion (Version 2.70)

8/10/2011

Welcome to the Oracle Database 11gR2 Upgrade Companion. This Upgrade Companion helps you to upgrade from either Oracle® Release 2 (9.2) or Oracle Database 10g to Oracle Database 11g Release 2, and includes pre-upgrade, upgrade, and post-upgrade guidance. Oracle continually updates this document as new information becomes available. Please check this document prior to performing any upgrade.

NOTE: The Upgrade Companion is an instructional document that serves as a companion to the Oracle Database documentation set. The Upgrade Companion:

- Does not supply automation tools
- Does not replace the [Oracle Database 11g Upgrade Guide](#)
- Describes the upgrade for generic database only. Database upgrade requirements for customer or Oracle applications should be factored into the upgrade as recommended by the product documentation.

For advice or onsite assistance during a database upgrade, see the [Accelerate Technology Adoption](#) page or the [Oracle Consulting Upgrade Services](#) page. Oracle Advanced Customer Services helps you make better IT decisions by providing you with the option to develop a personalized technology strategy and long-term operational plan for a successful transition to new Oracle capabilities. Oracle Consulting is a low risk cost-effective choice for Oracle upgrades. The Oracle Consulting service can be provided in partnership with your in-house staff, in close coordination with your chosen service provider, or as a remote service.

For application upgrades, see your application documentation and My Oracle Support. For your convenience, the following list shows some common E-Business Suite My Oracle Support documents. For a complete list of documents, see My Oracle Support.

Oracle E-Business Suite:

- [Document 881505.1](#): Interoperability Notes Oracle EBS 11i with Oracle Database 11gR2 (11.2.0.2)
