Masonic Voice and Review ,1885 Ideology and the Ideologists Lewis S. Feuer,2011-12-31 The revival of ideology which began early in the second half of the last century has led to reconsideration of the following questions What underlies the pattern of the rise and decline of the ideological mode of thought What leads young intellectuals to search for an ideology What accounts for the changes in ideological fashion over time and nation and shifts from one set of philosophical tenets to another Who indeed are the intellectuals Studies of ideology have tended to range themselves for or against particular viewpoints or have concerned themselves with defining perspectives The purpose of this book is to examine the common causal patterns in the development of various differing ideologies Feuer finds that any ideology may be said to be composed of three ingredients The most basic and invariant is some form of Mosaic myth Every ideology also has its characteristic philosophical tenets spreading from left to right which conform to the cycle of ideas and finally an ideology must be taken up by some section of the population who can translate it into action Intellectuals in generational revolt find in some version of the ideological myth a charter and dramatization of their emotions aims and actions Since each generation of intellectuals tends to reject its predecessors doctrines a law of intellectual fashion arises the alternation of philosophical doctrines Ideology has inevitably made for an authoritarian presumption on the part of master intellectuals and marginal ones and assumes their antagonism to objective truth and science It is Feuer s contention that only when intellectuals abandon ideology in favor of science or scholarship will an unfortunate chapter in the history of human unreasonbe overcome **The Oracle Encyclopaedia** ,1896
