Cooking with Grease is a powerful behind the scenes memoir of the life and times of a tenacious political organizer and the first African American woman to head a major presidential campaign Donna Brazile fought her first political fight at age nine campaigning successfully for a city council candidate who promised a playground in her neighborhood The day after Martin Luther King Jr was assassinated she committed her heart and her future to political and social activism By the 2000 presidential election Brazile had become a major player in American political history and she remains one of the most outspoken and forceful political activists of our day Donna grew up one of nine children in a working poor family in New Orleans a place where talking politics comes as naturally as stirring a pot of seafood gumbo and where the two often go hand in hand Growing up Donna learned how to cook from watching her mother Jean stir the pots in their family kitchen She inherited her love of reading and politics from her grandmother Frances Her brothers Teddy Man and Chet worked as foot soldiers in her early business schemes and voter registration efforts Cooking with Grease follows Donna s rise to greater and greater political and personal accomplishments lobbying for student financial aide organizing demonstrations to make Martin Luther King Jr s birthday a national holiday and working on the Jesse Jackson Dick Gephardt Michael Dukakis and Bill Clinton presidential campaigns But each new career success came with its own kind of heartache especially in her greatest challenge leading Al Gore s 2000 campaign making her the first African American to lead a major presidential campaign Cooking with Grease is an intimate account of Donna s thirty years in politics Her stories of the leaders and activists who have helped shape America s future are both inspiring and memorable Donna s witty style and innovative political strategies have garnered her the respect and admiration of colleagues and adversaries alike she is as comfortable trading quips with J C Watts as she is with her Democratic colleagues Her story is as warm and nourishing as a bowl of Brazile family gumbo

Consumer Optimization Problem Solving Alfred L Norman, 2014-12-15 What algorithms are tractable depends on the speed of the processor Given the speed of digital computers polynomial algorithms are considered tractable But a human can take several seconds to make one binary comparison between two pens Given this slow speed sublinear algorithms are considered tractable for an unaided human and this defines Simon's concept of bounded rationality Humans make simplifications to solve the intractable consumer optimization problem Consumers search for goods and services item by item which greatly reduces the number of alternatives to consider In addition consumers have operators that can process a set in a single operation Also consumers budget by incremental adjustment In considering consumer performance the question to ask is how close to optimal is consumer performance and not whether consumers optimize as a yes no question Given the ordinal nature of utility theory this creates a basic measurement problem The book presents a review of the literature on consumer performance This is an opportune time to study consumer procedures because the Internet provides a media to make substantial improvements in consumer performance The book includes a case study comparing the performance of a digital camera selection code with the advice of sales people A field experiment demonstrates that the software code provides better advice
