Language and Culture in the Intercultural World Vesna Mikolič,2020-12-09 The intensification of contacts between cultures and languages has a major impact on all social spheres today Multiculturalism and multilingualism are important elements of the local regional national and global community Much of the world s conflict stems from the contrast between globalization and nationalism fuelled by religions racial divisions traditions and other cultural particularities Focusing mainly on the situation in Central and South eastern Europe this book addresses how cultural identities develop through tourism education literature and other social fields and how language and literature teaching should be planned in this context It consists of the following sections Language Culture and Tourism Interculturalism Multilingualism and Approaches to Language Learning and Culture in Literature and Translation The volume will be of interest to teachers and researchers of cultural and tourism studies linguistics and language learning literary studies and translation while also addressing wider readers interested in contemporary intercultural society Resources in Education ,2000 **Research in Education** ,1974 **Resources in Vocational Education** ,1977 **How can the use of frequency information from corpora be used in foreign language teaching? A corpus-based study on vocabulary in course books** Karin Dietiová,2019-02-27 Diploma Thesis from the year 2016 in the subject Didactics for the subject English Pedagogy Literature Studies grade A course Angli tina language English abstract How can corpora be used to improve vocabulary learning in language acquisition This thesis focuses on the use of word frequencies by teachers of English Teaching vocabulary to young learners is one of the most challenging responsibilities that teachers face The methodology chosen for the presentation of vocabulary is crucial for the learning success of the students There is a great amount of studies on how computers can facilitate the learning of English as a foreign language EFL and with the development of immense corpora both teachers and students now have access to hundreds of millions of words and the possibility to explore their occurrence patterns This advantage is however rarely used in practice partly due to the relatively short existence of this discipline but most importantly due to the lack of information about corpora in English language teaching ELT This paper will present the concept of course book vocabulary

and present word frequencies in learner s dictionaries The research part of this thesis deals with a linguistic analysis of data extracted from course books and their comparison with the Oxford list of 3000 essential words The aim of the thesis is to investigate the linguistic attributes of texts forming course books and to examine their relation
