Introducing Sociology

Using the Stuff of Everyday Life Josee Johnston, Kate Cairns, Shyon Baumann, 2017-01-06 The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners This is not an issue of pandering to students or otherwise seeking the lowest common denominator On the contrary it is a question of again making the practice of sociological thinking meaningful rigorous and relevant to today's world of undergraduates This comparatively concise highly visual and affordable book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist's teaching arsenal the familiar stuff in students' everyday lives throughout the world the jeans they wear to class the coffee they drink each morning or the phones their professors tell them to put away during lectures A focus on consumer culture seeing the strange in the familiar is not only interesting for students it is also the authors suggest pedagogically superior to more traditional approaches By engaging students through their stuff this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking It moves beyond describing what sociology is so that students can practice what sociological thinking can do This pedagogy also posits a relationship between teacher and learner that is bi-directional Many students feel a sense of authority in various areas of consumer culture and they often enjoy sharing their knowledge with fellow students and with their instructor Opening up the sociology classroom to discussion of these topics validates students' expertise on their own life worlds Teachers in turn gain insight from the goods services and cultural expectations that shape students' lives While innovative the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester A map on pages ii-iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained Theory method and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology
