book aims to establish a community with attention to land use to achieve sustainable development and meet the needs of today's society. Urban planning depends on engineering, architectural, social, and political pillars. It pursues this by proposing solutions regulating environmental pollution and non-sustainable use of available resources. It showcases and even triggers further debate about connections between sustainable development, urban planning, and technology in hopes of achieving sustainable development models that sustain urban expansion and shape cities that improve the overall quality of life. It views urban planning and development as vital fields that ensure the application of revolutionary approaches with new materials and processes incorporated in the most efficient manner.

Future Connected Technologies Maanak Gupta, Ravi Tomar, Anuj Kumar Yadav, Hanumat Sastry G, 2023-07-17. The main aim of the book is to familiarize readers with the concepts of convergence of different connected and smart domains that are assisted by Cloud Computing core technologies behind Cloud Computing driving factors towards Cloud Computing and security challenges and proposed solutions in Cloud Computing. The book covers not only the cloud but also other pertinent topics such as Machine Learning, Deep Learning, IoT, and Fog Edge Computing. The last section of the book mainly focuses on the security aspects of connected technologies. The highpoints of the book is that it reviews the relation and combination of the mentioned topics which together creates a better understanding about almost every aspect of Cloud Computing related technologies.
