

Chapter 10 Projectile and Satellite Motion

Satellite in Circular Orbit

1. Figure A shows "Newton's Mountain," so high that its top is above the drag of the atmosphere. The cannonball is fired and hits the ground as shown.

- Draw a likely path that the cannonball might take if it were fired a little bit faster.
- Repeat for a still greater speed, but still less than 8 km/s.
- Draw the orbital path it would take if its speed were 8 km/s.
- What is the shape of the 8 km/s curve?

Figure A

- What would be the shape of the orbital path if the cannonball were fired at a speed of 9 km/s?

2. Figure B shows a satellite in circular orbit.

- At each of the four positions, draw a vector that represents the gravitational force exerted on the satellite.
- Label the force vectors F .
- Draw at each position a vector to represent the velocity of the satellite at that position and label it V .
- Are all four F vectors the same length? Why or why not?

Figure B

- Are all four V vectors the same length? Why or why not?

f. What is the angle between your F and V vectors?

g. Is there any component of F along V ?

h. What does this tell you about the work the force of gravity does on the satellite?

i. Does the KE of the satellite in Figure B remain constant or does it vary?

j. Does the PE of the satellite remain constant or does it vary?

Physics for the Inquiring Mind Eric M. Rogers,2011-04-17 In our scientific age an understanding of physics is part of a liberal education Lawyers bankers governors business heads administrators all wise educated people need a lasting understanding of physics so that they can enjoy those contacts with science and scientists that are part of our civilization both materially and intellectually They need knowledge and understanding instead of the feelings all too common that physics is dark and mysterious and that physicists are a strange people with incomprehensible interests Such a sense of understanding science and scientists can be gained neither from sermons on the beauty of science nor from the rigorous courses that colleges have offered for generations when the headache clears away it leaves little but a confused sense of mystery Nor is the need met by survey courses that offer a smorgasbord of tidbit they give science a bad name as a compendium of information or formulas The non scientist needs a course of study that enables him to learn real science and make its own with delight For lasting benefits the intelligent non scientist needs a course of study that enables him to learn genuine science carefully and then encourages him to think about it and use it He needs a carefully selected framework of topics not so many that learning becomes superficial and hurried not so few that he misses the connected nature of scientific work and thinking He must see how scientific knowledge is built up by building some scientific knowledge of his own by reading and discussing and if possible by doing experiments himself He must think his own way through some scientific arguments He must form his own opinion with guidance concerning the parts played by experiment and theory and he must be shown how to develop a taste for good theory He must see several varieties of scientific method at work And above all he

must think about science for himself and enjoy that These are the things that this book encourages readers to gain by their own study and thinking Physics for the Inquiring Mind is a book for the inquiring mind of students in college and for other readers who want to grow in scientific wisdom who want to know what physics really is **Master The NCERT for NEET Physics - Vol.1 2020** Arihant Experts,2019-06-04 While beginning the preparation for Medical and Engineering Entrances aspirants need to go beyond traditional NCERT textbooks to gain a complete grip over it to answer all questions correctly during the exam The revised edition of MASTER THE NCERT based on NCERT Classes XI and XII once again brings a unique set of all kinds of Objective Type Questions for Physics Chemistry Biology and Mathematics This book Master the NCERT for NEET Physics Vol 1 based on NCERT Class XI is a one of its kind book providing 15 Chapters equipped with topic wise objective questions NCERT Exemplar Objective Questions and a special separate format questions for NEET and other medical entrances It also provides explanations for difficult questions and past exam questions for knowing the pattern Based on a unique approach to master NCERT it is a perfect study resource to build the foundation over NEET and other medical entrances **40 Days Crash Course for NEET Physics** Arihant Experts,2021-11-25 1 NEET in 40 Day is Best Selling series for medical entrance preparations 2 This book deals with Physics subject 3 The whole syllabus is divided into day wise learning modules 4 Each day is assigned with 2 exercise The Foundation Questions Progressive Questions 5 Unit Tests and Full Length Mock Test papers for practice 6 NEET solved Papers are provided to understand the paper pattern 7 Free online Papers are given for practice 40 Days Physics for NEET serves as a Revision cum crash course manual that is designed to provide focused and speedy revision It has been conceived keeping in mind the latest trend of questions according to the level of different types of students The whole syllabus of physics has been divided into day wise learning module Each day is assigned with two exercises Foundation Question exercises having topically arranged question exercise and Progressive Question Exercise consists of higher difficult level question Along with daily exercises this book provides 8 Unit Test and 3 Full length Mock Tests for the complete practice At the end of the book NEET Solved Papers 2021 have been given for thorough practice TOC Preparing NEET 2022 Physics in 40 Days Day 1 Physical World and Measurement Day 2 Kinematics Day 3 Scalar and Vector Day 4 Laws of motion Day 5 Circular Motion Day 6 Work Energy and Power Day 7 System of Particle and Rigid Body Day 8 Rotational Motion Day 9 Gravitation Day 10 Unit Test 1 Day 11 Properties of Matter Day 12 Transfer of Heat Day 13 Behaviour of Perfect Gas and Kinetic Theory Day 14 Thermodynamics Day 15 Unit Test 2 Day 16 Oscillations Day 17 Waves Day 18 Unit Test 3 Day 19 Electrostatics Day 20 Current Electricity Day 21 Unit Test 4 Day 22 Magnetism Effects of Current Day 23 Magnetism Day 24 Electromagnetic Induction Day 25 Alternating Current Day 26 Electromagnetic Waves Day 27 Unit Test 5 Day 28 Ray Optics Day 29 Wave Optics Day 30 Unit Test 6 Day 31 Matter Waves Day 32 Photoelectric Effect Day 33 Atoms and Nuclei Day 34 Radioactivity Day 35 Unit Test 7 Day 36 Electronic Devices Day 37 Unit Test 8 Day 38 Mock Test 1 y39 Mock Test 2 Day 40 Mock Test 3 NEET Solved Papers 2019 National Odisha NEET Solved
