Property Management Jobs Pretoria:

Real Estate Finance and Economics Lucy Ogbenjuwa,2023-01-23 Finance is essential to the real estate project development sector's success. However, there is still an enormous gap in the real estate sector. What seems to be required is a model that could guide managers in securing real estate project development finance. Findings have shown that no comprehensive framework is presently available. This book presents a toolkit to support real estate managers in securing real estate project development finance. The book will help managers to understand the different financing options and criteria required by financiers. The study includes case studies from developed and emerging economies including Germany, the United Kingdom, the United States of America, China, Nigeria, and South Africa. The author concludes that the dominant challenges common to managers in both economies are access to land collateral and rising interest rates.

Process Management Maria Pomffyova,2010-04-01 The content of the book has been structured into four technical research sections with a total of 18 chapters written by well-recognized researchers worldwide. These sections are: 1. process and performance management and their measurement methods; 2. management of manufacturing processes with the aim to be quickly adaptable after real situation demands and their control; 3. quality management information and communication systems; their integration and risk management; 4. management processes of healthcare and water construction and demolition waste problems and integration of environmental processes into management decisions.

Technology Business Incubation Rustam Lalkaka,2006-01-01 Many businesses around the world use technology as a means to set up, run, and improve their commercial performance, but not all countries have sufficient access to technology. In fact, the digital divide between rich and poor countries is one of the major international challenges facing our society. Technology Business Incubation describes a concept whereby technological support and services are offered to start-up companies in the fields of engineering, science, and technology to help them further their own research and develop viable businesses. Aimed at developed and developing countries, this concept could provide a solution in bridging the knowledge gap. Written by Rustam Lalkaka, a well-known expert in the field, the toolkit provides invaluable information for carrying out feasibility studies, preparing business plans, choosing a location, finding sponsors, selecting managers and tenants, and monitoring a technology business incubator. Annexes contain checklists and report pro formas to help prepare relevant documents based on local needs.

Land-Use Management to Support Sustainable Settlements in South Africa Verna Nel, Stuart Paul Denoon-Stevens,2023-10-24 This book provides a theoretical and practical foundation needed to change the practice of land use management in Southern Africa. It presents an overview of an alternative land use management system for South African municipalities that is economically, socially, and environmentally more sustainable than many of the land use schemes in

effect at present Land use management is a component of spatial governance that controls the nature and extent of development to prevent harmful impacts on people and the environment As the current system with its colonial modernist planning and regulatory mechanisms were never designed to deal with rapid change urbanisation and informality a different form of land development and land use management is necessary This timely book reflects the culmination of many years of practical experience and research into various aspects of land use management by the authors and studies undertaken by their master s and doctoral students The book goes beyond an analysis of the problems and suggests concrete proposals that can be applied throughout Southern Africa based on a rural to urban transect This book is directed to a broad range of readers interested in spatial planning and land use management It will be of interest to those in the fields of geography urban studies urban design planning and architecture **Financial Mail** ,2002-08 *Business and Management for the IB Diploma* Peter Stimpson,Alex Smith,2011-02-24 Designed for class use and independent study this coursebook is tailored to the thematic requirements and assessment objectives of the IB syllabus It features the following topics business organisation and environment human resources accounts and finance marketing operations management and business strategy

African Free Trade Agreements and Intellectual Property Michael Blakeney,Getachew M. Alemu,2024-02-12 This informative book examines the intellectual property IP provisions of the sub regional and continental Free Trade Agreements FTAs that have been implemented in Africa to facilitate trade and promote economic integration Michael Blakeney and Getachew Mengistie Alemu explain how FTAs can be used when setting IP standards in order to influence the ongoing effort to develop effective international agreements with Africa **Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for Fiscal Year 1993: Board for International Broadcasting** United States. Congress. Senate. Committee on Appropriations. Subcommittee on Commerce, Justice, State, the Judiciary, and Related Agencies,1992 Cities, Space and Power Amira Osman,2020-12-31 The scholarly purpose of this manuscript is to provide a resource for academics and researchers looking into cities space and power in emerging economies It also takes into consideration the relationship between emerging economies and developing contexts as well as the lessons that may be shared between them This book presents a unique perspective and aims to highlight issues not addressed much in writing on the built environment Based on substantiation and references to numerous other sources and authors alternative theoretical frameworks for the study of the built environment are developed This is a very relevant contribution at this time especially as cities will most probably go through transformations in the post COVID 19 era Our first line of defense against this public health crisis will be in areas of poverty with people who have generally been excluded and urban practices that have been undocumented or labeled as informal The main thesis of the manuscript is that space and power are strongly linked in cities The research results prevalent in the book are original and while the authors consult widely across disciplines the themes are firmly rooted in the built environment fields with a focus on the architectural discipline **Gender, Vulnerability Theory**

and Public Procurement S.N. Nyeck, 2023-07-28 Taking up the concept of vulnerability this book examines the gendered impact of market based procurement practices In recent years ideological shifts and real managerial constraints have forced states everywhere to rely on private resources to solve public problems Focusing on instances where the state retains ownership of assets and rights even if it temporarily devolves its authority to a private entity profit or non profit this book uncovers the ways in which these private actors are not just suppliers of materials goods but increasingly policy influencers More specifically the book focuses on the gendered dynamics within the law policy and practice of public procurement and investigates how vulnerability is conceptualized and coded in the process of public acquisition of works goods and services from private suppliers In this book a series of rich case studies from Africa the Middle East and Europe show how vulnerability theory can inform the design of public institutions that are more responsible and responsive to gender informed demands for social justice This is the first book to integrate vulnerability theory into public procurement studies in global and comparative perspectives and it will appeal to scholars and others with interests in gendered dynamics in law and society international development public policy and international political economy **Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for Fiscal Year 1993** United States.
