

# How Does QR Code Error Correction Works?

## Level L

- The lowest level of error correction rate.
- QR code generators use this level if the user intends to generate a less dense QR code image.
- Has the highest error correction rate of approximately **seven percent (7%)**

## Level M

- The middle tier level of error correction level that QR code experts recommend for marketing use.
- Has the highest error correction rate of approximately **fifteen percent (15%)**

## Level Q

- The second to the highest error correction level
- Has the highest error correction rate of approximately **twenty-five percent (25%)**

## Level H

- The highest error correction level that can withstand an extreme level of damage in their QR code.
- The level Q and H error correction levels are most recommended for industrial and manufacturing companies.
- These codes can experience both environmental and man-made conditions that lead to inevitable damages.
- Has the highest error correction rate of approximately **thirty percent (30%)**

**Barcodes for Mobile Devices** Hiroko Kato, Keng T. Tan, Douglas Chai, 2010-04-08 From inventory management in stores to automotive part tracking in assembly plants, barcodes are one of the most prevalent automatic identification and data capture technologies. This book provides a complete introduction to barcodes for mobile devices, presenting the most relevant and up to date information previously unavailable elsewhere or difficult to obtain. The focus throughout is on recent developments and two dimensional 2D barcodes including the research and development steps towards colour barcodes for mobile devices, helping readers to develop their own barcodes. The authors also provide design details for their own novel colour 2D barcode, the Mobile MultiColour Composite MMCC barcode, plus coverage of RFID technology and one dimensional barcodes. This book is ideal for professional developers of barcodes for mobile devices who need the latest technical details and information on how to develop barcodes. It is also a useful reference for graduate students researching the field of barcode technology and mobile computing.
