Climate Action United Nations Environment Programme, 2008. The publication features a range of articles that encourage the sharing of best practice and the development of new technologies and initiatives and illustrates the opportunities for business and governments to reduce costs and increase profits while tackling climate change. This second edition of Climate Action is focused on three themes: Mitigation and Adaptation, Technology and Finance. It also describes positive actions organizations can take to reduce their carbon footprint and thereby their costs. Some of these actions require little investment in time or money while others require substantial time and capital. But what they all require is a commitment to succeed.

Small and Medium Enterprises, Law and Business Jan Winczorek, Karol Muszynski, 2023-06-23. The law plays an ambiguous role in running business. While legal tools can be used to tame uncertainties, for example by concluding contracts to safeguard enforcement of future claims, they can also generate uncertainty. These secondary uncertainties, like ones stemming from vague rights and obligations, may be counterbalanced by using different resources and strategies, including acting informally, modifying business plans, or accepting the losses from unpaid dues. This book discusses how small and medium enterprises use the law, abstain from using the law, and use alternative pathways to manage business uncertainties. Examining these topics through the lenses of an extensive qualitative and quantitative empirical study on justiciable issues, access to justice, and legal uncertainty among SMEs in Poland, it implements and expands upon the paradigmatic paths to justice methodology which has been successfully used to study conflict resolution, access to justice, and utilisation of the law by individuals in more than 30 jurisdictions. It argues that the grand promise of modern law, that it is a certainty providing a neutral and democratic device to resolve problems and conflicts, is not fully delivered. It reveals how the conditions of a freshly developed capitalism, combined with the rule of law, backsliding, contribute to universal structural problems with access to justice, meaning that accessing justice is a resource-hungry process which incentivises small

businesses to settle for their legal problems and engage in informal and alternative strategies *Education Law* Michael Imber, Tyll van Geel, 2010-04-02 Education Law provides a comprehensive survey of the legal problems and issues that confront school administrators and policymakers **The Palgrave Handbook on the Pedagogy of International Relations Theory** Jamie Frueh, Jacqui Ala, Michael P.A.
