[4 python and scikit learn for predictive analytics predictive](#) - Mar 31 2022

web we discussed the importance of predictive analytics in the modern enterprise and went through some industry use cases to appreciate the real world implications of its implementation we then went slightly deep into the statistics and mathematics behind different predictive analytics algorithms

*mastering predictive analytics with scikit learn and tensorflow* - Jun 02 2022

web mastering predictive analytics with scikit learn and tensorflow covers various implementations of ensemble methods how they are used with real world datasets and how they improve prediction accuracy in classification and regression problems this book starts with ensemble methods and their features

**how to make predictions with scikit learn activestate** - Oct 06 2022

web decision tree example import the library required for this example create the decision tree regression model from sklearn import tree dtree tree decisiontreeregressor min samples split 20 dtree fit x train y train print accuracy dtree predict use shap explainer to interpret values in the test set ex shap treeexplainer dtree

summary mastering predictive analytics with scikit learn and - Dec 08 2022

web summary in this chapter we talked about feature selection methods how to distinguish between useful features and features that are not likely to be helpful in prediction we talked about dimensionality reduction and we learned how to perform pca in scikit learn
