

## Scale Score Interpretation Guide

In response to client need for finer-grained score reporting options for the WorkKeys® assessments, ACT created a Scale Score for the assessments. This document helps in understanding the WorkKeys Scale Score by explaining what the score is, how it can be used, and how it was developed.

### Background

WorkKeys was originally developed to be used in conjunction with a job profiling process for employee selection and promotion decisions. The score used for this purpose is the Level Score, which yields a broad-based score range of 5 points across the performance range. Only Level Scores should be used for selection, promotion, or other individual high-stakes purposes that are based on WorkKeys profiles. The profiles are aligned to Levels and not to a more granular score. Further, the Level Scores, validated by profiling, have greater stability than more fine-grained scores.

### Types of WorkKeys Scores

#### Level Scores:

Used for selection, promotion, or other individual high-stakes purposes when additional work such as a job profile has been conducted.

#### Scale Scores:

Used to provide finer-grained score distinctions for analyzing growth over time, developed group comparisons or outcome measures, and provide evidence of benefits from educational and training programs.
