

# RESEARCH PROPOSAL TEMPLATE

When preparing an application for entry into a research higher degree program it is necessary to supply a clear statement describing the proposed area of research (a research proposal). Consultation with a faculty or school academic staff member in the research area of interest is recommended prior to submission of an application. Liaising with an academic allows you to frame the proposal to align with established disciplines and areas of supervisor capacity.

You must write your own research proposal and reference accordingly. The exception is when your potential supervisor finalises the research proposal with you, for a specific research project that has already been defined. Please visit the University's Academic Integrity pages and policy

## General

Length:	From one to three pages is often suitable, depending on the area of research.
Detail:	The following outline may be used as a guide. You should consider each of the areas that will be relevant to your research.
Minimums:	The recommended minimum requirements are identified with an asterisk (*).

## Research topic/title\*

An initial working title should be provided and should describe the content and direction of your project.  
For example: *A template for assisting research students in the development of a research proposal.*

## PROJECT DESCRIPTION

### Background

What is already known or unknown? Set the scene.

### Aims\*

What do you want to know, prove, demonstrate, analyse, test, investigate or examine? List your project aims in a logical sequence. For example:  
The aim of this project is to:

- Provide an outline of a research proposal
- Enable a prospective student to prepare a research proposal

### Methodology\*

How do you anticipate you will achieve these aims?  
What do you need? (specify any special equipment, software or material) Can you access necessary data or expertise?  
Do you require particular resources?  
Are there barriers or pitfalls?  
Does the project involve human ethics, animal ethics or safety implications?  
Is travel or fieldwork required? If so, where to, how long and at what intervals?

### Expected outcomes, significance or rationale

Why is it important?  
What do you expect it will deliver?  
What are the expected outcomes?  
Establish the importance of your project by highlighting its originality or why it is worth pursuing. Highlight the benefits, positive expected outcomes or innovative applications of knowledge.

### Timetable\*

Indicate the timeframe for each broad stage considering literature surveys, data collection, production, modelling, review, analysis, testing, reporting, chapter and thesis writing, and thesis submission date.

**Communication** Sandra Cleary,2008-03 Book CD The ability to communicate well is a key marker of success  
in any environment particularly in the world of work This book is based on the widely used and respected The  
Communication Handbook written by a team of dedicated communicators and higher education specialists Although the  
material has been substantially reworked and expanded the focus remains on different forms of communication The emphasis  
is placed on writing as a communication tool particularly within the business environment To support this each chapter  
contains numerous exercises to enable the student to practise the skills learnt An exciting addition to this text is the inclusion  
of online interactive exercises for students The drilling exercises will enable students to reinforce the principles that have  
been explained and tested in the book but in a fun interactive and learning enabled way Lecturers can use the range of  
exercises to ensure that students are prepared before class and to reinforce the theories and techniques taught in the  
classroom The package is being piloted at a major South African university The authors draw from substantial experience in  
the classroom and from close contact with business and industry For that reason a student working through this book will be  
well prepared to communicate with success in the business environment

**Handbook of Scientific Proposal Writing**  
A.Yavuz Oruc,2011-10-25 Investigators their home institutions and funding agencies play significant roles in the development  
and outcomes of scientific projects Submitting a proposal to a funding agency is only one dimension of a multivariable and  
complex funding process and understanding this is a good first step toward unlocking the puzzle behind why some research  
proposals receive awards while others are declined The Handbook of Scientific Proposal Writing offers researchers and  
research administrators a broad perspective on the process of initiating and conducting funded scientific research projects  
Written for students and researchers in all fields and disciplines this reference offers a holistic approach to conceiving and  
then converting new ideas into effective proposals It focuses on the technical aspects of writing proposals rather than the  
fund raising issues Chapters provide full coverage of the scientific method including information on how scientific research

should be conducted Providing the tools necessary to organize ideas and obtain the funds needed to effectively manage projects the Handbook of Scientific Proposal Writing includes 56 figures and 25 tables to help convey key ideas More than 150 citations that provide pointers to additional sources for further reading Examples to help the reader ease through more abstract concepts End of chapter questions to stimulate further examination and comprehension **Research Methods in Palliative Care** Julia M Addington-Hall,2007-06-07 The research base for palliative care must improve as it continues to develop in increasingly evidence based health care systems and to provide the needs of patients and families This is the first research methods textbook focusing on the unique needs of palliative care aimed at improving current research and stimulating new research in the field
