

Pyxis® ES platform solutions for hospitals and IDNs

Pyxis MedStation™ ES system

As the healthcare industry evolves to meet the growing care demands driven by national reforms, expanded healthcare coverage and an aging population, hospitals and Integrated Delivery Networks (IDNs) alike are facing increased economic pressure. To survive, they must adopt new approaches for improving clinical and operational efficiency. From reimbursement provisions to sophisticated IT requirements to IDN growth—today's complex challenges require flexible end-to-end medication management solutions.

The new Pyxis® ES platform from CareFusion is designed to address the changing landscape of healthcare and ushers in a new generation of Pyxis solutions. The cornerstone of the new platform is the Pyxis MedStation™ ES system—featuring innovative enterprise-wide integration capabilities previously not seen in other medication management systems.

Pyxis MedStation ES system advantages:

- Provides simple, safe clinical workflow centered around the patient
- Minimizes disruptions, delays and risk of error
- Offers increased security and capacity for storing larger medications
- Leverages centralized configuration efforts across the health system
- Allows system access from any hospital computer or web browser
- Facilitates compliance with select regulatory requirements
- Enables meaningful integration with HIT systems
- Reduces IT footprint and leverages existing investments
