L'écriture du bonheur dans le roman contemporain Ruth Amar, 2011-01-18 Through the ages the pursuit of Happiness has been at the heart of the needs and desires each individual would seek to fulfill while as a concept Happiness has always resonated strongly in poetic as well as philosophical sociological and psychological contexts But what about Happiness today in a world dominated by technology driven by productivity and dictated by efficiency Does Happiness still feature in contemporary fiction in any significant way Or has it perhaps gone underground adopting different guises Would we still call that duty of happiness that Pascal Bruckner saw as present at the second half of the twentieth century a relevant force today Or has it waned perceptibly The articles brought together in this volume seek to work out answers to these and similar questions creatively addressing the imminent risks but also eagerly following up the intriguing possibilities one encounters when interrogating Happiness in the contemporary novel Originally based on an international conference organized at the University of Haifa Israel in May 2010 the volume is structured around the axes we found useful as a basis for the various approaches towards Happiness in Europe and the historical and social events that influenced the writing of Happiness as they defined the 20th century and have impacted on the 21st the Holocaust the Soviet dystopia consumerism postmodernism everyday life the various as yet unarticulated new modes of life they have given rise to and so on A new writing of happiness then At the very least this volume targets the contemporary novel without wanting to solidify works instead taking into account the fluctuations Happiness has been subjected to and the diversity and especially the paradoxes it has created while we have been keen to preserve a precise reading of the texts and have felt compelled to respect and preserve the particular features that make the writings of the authors we focus on stand out Thème philosophique aussi bien que poétique sociologique et psychologique le bonheur défie la mesure de chacun N'est-il pas vrai que nous autres hommes nous désirons tous être heureux Platon Or dans notre monde actuel dominé par la technique la recherche outrance du productif et de l'efficacité qu'en est-il du bonheur Est-il encore présent aux critiques romanesques contemporaines Sous quelles formes se présenterait sa recherche Ce devoir de bonheur propre à la deuxième moitié du XXe siècle dont parle Pascal Bruckner continue-t-il

Apprendre à bien parler des sciences Isabelle Stengers, 2023-05-17 Les scientifiques se sentent trahis Ils dénoncent une montée de l'irrationalité et du relativisme sceptique Mais ils savent aussi que leur ancienne alliance avec l'état est morte celui-ci ne rève plus que de brevets de percées technologiques Les scientifiques sont désormais de plus en plus dépendants de financements extérieurs rarement dissimulés et d'accords avec des entreprises privées dans le cadre de la nouvelle économie de la connaissance Par ailleurs ils sont aussi confrontés à un nouveau type de public posant des questions gênantes au lieu de faire confiance au progrès Ce public indiscipliné mais pertinent pourrait bien être un allié indispensable pour les scientifiques menacés d'asservissement mais une telle alliance à un prix elle demande qu'ils renoncent aux mots d'ordre qui font d'eux la tête pensante d'une humanité en progrès Le pari de ce livre est que les scientifiques peuvent y renoncer Au-delà il tente de forger les mots qui permettent d'affirmer ensemble sans confusion ni hiérarchie des pratiques qui divergent par exemple celle des paléontologues adressant la Vierge et celle qui a autorisé attribuer une masse au neutrino Il plaide pour une écologie des pratiques dont les praticiens sauraient que ce qui les fait penser sentir et habiter ne leur appartient pas
