veloppement durable l'air et l'eau **Qu'est-ce que le développement durable pour les architectes ?** Marc Sautereau, 2016-01-07 Cet ouvrage aux multiples voix rassemble les réflexions d'agences d'architecture françaises et internationales face aux enjeux du développement durable. Chacun évoque ici les aspects environnementaux et sociaux de façon personnelle parfois engagée puisque il le faut le bien commun l'échelle de la planète concerne aussi le métier d'architecte. La question du développement durable devient un élément indissociable de la conception et de la réalisation des projets architecturaux elle est traitée dans les formes les matériaux l'éclairage les ouvertures etc. Ce livre réunit et rapproche les points de vue des concepteurs de nos villes d'aujourd'hui et de demain **Concourir à l'excellence** Jean-Pierre Chupin, 2016-12-12 Fruit d'efforts collectifs ce livre se parcourt de multiples façons tel un guide de voyage dans la recherche de la qualité architecturale. Les textes rédigés par une trentaine d'auteurs renvoient aux ressources du Catalogue des Concours Canadiens CCC grande archive numérique ouverte en ligne au public depuis 2006. Ces dictionnaires proposent une sélection d'une soixantaine de concours couvrant les 70 dernières années de l'histoire canadienne avec un accent particulier sur la période contemporaine. L'ouvrage est collectif puisque ces concours organisés par de nombreuses institutions publiques et privées ont donné lieu à la conception de plusieurs centaines de projets d'architecture d'urbanisme et de paysage d'un océan à l'autre. Réalisés ou réalisés tous ces projets contribuent potentiellement à la constitution d'un patrimoine matériel et immatériel commun. Sachant que les organisateurs concepteurs jurés ou critiques de nos environnements n'opèrent jamais dans la solitude on peut dire sans exagération que cet ouvrage est le fruit de la collaboration d'une myriade de personnes. C'est ce que nous appellerons ici concourir à l'excellence en architecture. Le matériau de construction joue un rôle prépondérant en répondant à des exigences de protection de confort et de performances techniques tout en favorisant un langage architectural et des sensations. Mais le rôle des matériaux dépasse la notion d'image ou de performance il doit aujourd'hui répondre à des exigences de préservation des ressources d'impact environnemental et sanitaire mais aussi des exigences de réutilisation ou de recyclage. La question du choix est abordée suivant une approche prospective car elle tient compte à la fois des impacts environnementaux et sanitaires scientifiquement avérés et prouvés globalement car elle tient compte de l'ensemble des étapes du cycle de vie des matériaux et du bâtiment.

est de finir des schémas viables qui concilient les trois aspects économique social et environnementale des activités humaines. Pour y parvenir la mise en place d'une véritable politique de développement globale et transversale s'impose. En Afrique subsaharienne une nouvelle demande sociale se construit au lendemain des indépendances années 1960 dans des pays. Pour répondre la nouvelle responsabilité de gestion des affaires locales les États africains se mettent désormais la recherche d'un nouveau dynamisme socio-économique où il y aura plus d'harmonie de dialogue et de coopération. Plusieurs actions figuraient dans la plupart des plans d'action des gouvernements pour construire et équilibrer les économies nationales et combler les peuples. Suite aux revendications socio-politiques des années 1980 la plupart des pays africains subsahariens s'étaient engagés dans des réflexions sur les interventions de développement pour un changement considérable afin d'améliorer les conditions de vie des populations.

**Changement climatique** Hassan Aït Haddou, Dimitri Toubanos, Philippe Villien, 2022-11-01. Cet ouvrage traite du changement climatique thématique urgente de la transition écologique. Ce deuxième numéro de la revue CLARA Architecture Recherche aborde deux thématiques qui se situent au cœur de récents débats d'architecture et de société. Dans un premier dossier thématique étudiants et enseignants d'un atelier de la Faculté d'architecture La Cambre Horta aidés de chercheurs de l'ULB nous emmènent la découverte des mosquées bruxelloises travers des relevés de terrain, des enquêtes et des projets, ils visitent l'architecture des lieux de culte musulmans en questionnant la place de l'islam dans l'espace public et la capacité du tissu urbain et social bruxellois accueillir de nouveaux usages. Un second dossier est consacré au récent transfert de l'enseignement de l'architecture à l'université. Il interroge l'historicité du dispositif pédagogique de l'atelier, la scientificité de la discipline architecturale, les défis de son enseignement et le statut de l'architecte.
