Rebuilding Story Worlds Jan Baetens, 2020-06-12 A collaboration between Belgian artist François Schuiten and French writer Benoît Peeters. The *Obscure Cities* is one of the few comics series to achieve massive popularity while remaining highly experimental in form and content. Set in a parallel world full of architecturally distinctive city states, *The Obscure Cities* also represents one of the most impressive pieces of world building in any form of literature. *Rebuilding Story Worlds* offers the first full-length study of this seminal series, exploring both the artistic traditions from which it emerges and the innovative ways it plays with genre, gender, and urban space. Comics scholar Jan Baetens examines how Schuiten's work as an architectural designer informs the series' concerns with the preservation of historic buildings. He also includes an original interview with Peeters which reveals how poststructuralist critical theory influenced their construction of a rhizomatic fictional world, one which has made space for fan contributions through the *Alta Plana* website. Synthesizing cutting-edge approaches from both literary and visual studies, *Rebuilding Story Worlds* will give readers a new appreciation for both the aesthetic ingenuity of *The Obscure Cities* and its nuanced conception of politics.

Assassin's Creed: The Resurrection Plot Kate Heartfield, 2023-07-04 The conspiracies of the Templars reverberate across nineteenth-century Europe as they seize control of the future, and only the Brotherhood of Assassins can hold them back in this globetrotting adventure.

From *Assassin's Creed: Cairo 1869* When a bomb goes off at the Khedivial Opera House celebrating the opening of the new Suez Canal, visiting Assassin Pierrette Arnaud investigates only to uncover a plot to eradicate free will. To her surprise, her old friend and teacher Simeon Price arrives in Egypt on the same trail seven years after they allied to stop the Templars in London. But there's no time to reminisce as the Templars maneuver Europe and Africa like pieces on a chessboard, wreaking havoc on a global scale. As Simeon and Pierrette race to stop further attacks, they unearth plans suggesting a mysterious tower is the key to the ultimate Templar takeover, and with the puzzling Engine of History in their grasp, the Assassins might be outmatched at last.
