professional writer Robert Hutchison became a passenger on a 10 000 mile trip through fourteen countries in a Scania 111 He was sampling the life of the long haul trucker The truckers world was one of long days and nights on the road away from their families hair raising tales of accidents and the extreme danger created by murderous driving He grew to understand why truckers put up with the life not just for the money and the excitement but also for their pride in coping whatever the circumstances and for camaraderie There was too the beauty of mountains and lakesides and the strangeness of the desert

Robert's trip with Graham Davies of Whittle International took him through Cold War Europe to Turkey and then through Iraq during the Iran Iraq conflict with twenty mile border queues and frequent police shakedowns. Finally they delivered their cargo of machinery and ovens for making plastic pipes to Al Khobar in Saudi Arabia before heading home after 31 days on the road. This journey was undertaken when the golden age of transport from Europe to the Gulf was coming to an end. Robert's accurate record first published in 1987 is full of interest, drama and humour, telling the story of a remarkable breed of men. This is the first paperback edition. *Fifty Shades of Tarmac* Andy MacLean, 2015-08-12. It was 1972. It was summer and the living was easy. Arthur Jackson has a good job, no ties and no responsibilities, but it is not enough; he wants adventure and he wants to see the world. Based on the author's real life experiences and illustrated with photographs from the time, *Fifty Shades of Tarmac* tells the fictional story of how a naive young British truck driver obtains his first job driving a Mack on the continent of Europe. His first trip, with all its pitfalls and novel experiences, takes him from Rotterdam to Bremerhaven via Moutiers and Salzburg and then back to Rotterdam. It is told with humour, introducing a number of colourful characters and providing a personal and unusual insight into the life of a truck driver in the 70s at a time when Europe still had frontier posts and custom restrictions. It will be of interest to truck drivers, Mack fans and other transport enthusiasts and those who simply want to learn more about the social history of Europe in the 1970s. *The Writing's on the Truck* John Corah, 2019-10-01. *The Writing's on the Truck* is a pictorial look at the traditional art of signwriting on commercial vehicles by renowned signwriter John Corah. John began signwriting in 1982, working for Brian Harris Transport Ltd. Brian's well-turned-out trucks were regularly seen on the roads between the Southwest and the North of Scotland, and with this excellent showcase for his skills, John quickly built up a large customer base. Since then, he has written on ERFs, Leylands, Guys, Fodens, Atkinsons, Albions and AECs, to name a few, and he is responsible for the distinctive livery of a number of traditional family-run haulage companies. In some cases, he worked on the vehicles when brand new and then again when restored, some 20-30 years later. Sadly, many of the once familiar and iconic companies have disappeared over the years, and today computer-generated vinyl lettering has almost completely taken over the art, and few modern fleets are signwritten. *The Writing's on the Truck* includes 210 fully captioned and previously unpublished photos of the vehicles he worked on, many of which will be remembered by transport fans. UK-wide, the book tells the story of the development of John's business, the methods he uses to create particular effects, and numerous anecdotes from his working life. It will be of interest to anyone involved with road haulage and the preservation of classic trucks. **Know Your Chickens** Jack Byard, 2020-12-01. **Trucks in the 1980s: The Photos of David Wakefield** Nick Ireland,2015-07-20 Many would argue that the 1980s were a better time for truck drivers than nowadays there were no cell phones there was less traffic on the road CB radio was all the rage and stickers were the simple heart of truck customizing However the transport industry is constantly evolving and companies must adapt their vehicles to keep pace with the developments As a result vehicle design and liveries regularly change Many of the companies around in the 1980s have expired and been forgotten Most of the trucks from that time are long gone to the great scrapyards in the sky David Wakefield has been working in the transport industry for over 30 years and has been taking photographs of trucks since the early 1980s He has amassed thousands of high quality images producing one of the most comprehensive photographic collections of the time but many of his photographs have never been previously published In this vivid compilation Nick Ireland has collated 300 of David's images from the 1980s in order to preserve them and make them publicly available for the first time The book features trucks from all over the world and it is a must have for current and former truckers who will enjoy being reminded of the good old days as well as anyone else with an interest in transport history Subject History Transportation Photography
