**Transforming Societies after Political Violence** Brandon Hamber, 2009-06-12 Paraphrasing Descartes we may say that one method is to take the reader into your confidence by explaining to him how you arrived at your discovery the other

is to bully him into accepting a conclusion by parading a series of propositions which he must accept and which lead to it The first method allows the reader to re think your own thoughts in their natural order It is an autobiographical style Writing in this style you include not what you had for breakfast on the day of your discovery but any significant consideration which helped you arrive at your idea In particular you say what your aim was what problems you were trying to solve and what you hoped from a solution of them The other style suppresses all this It is didactic and intimidating J W N Watkins Confession is Good for Ideas Watkins 1963 pp 667 668 I began writing this book over 12 years ago It was started in the midst of the South African Truth and Reconciliation Commission TRC It is an exploration of what I have learned from the process During the TRC I was working at the Centre for the Study of Violence and Reconciliation CSVr in South Africa primarily with people who testified before the Commission but also on a range of research and policy initiatives in the area that is now called transitional justice I have written about the TRC process extensively

*Law and Democracy in the Empire of Force* James Boyd White, H. Jefferson Powell, 2009-05-05 The authors of this book share a concern for the state of law and democracy in our country which to many seems to have deteriorated badly Deep changes are visible in a wide array of phenomena judicial opinions the teaching of law legal practice international relations legal scholarship congressional deliberations and the culture of contemporary politics In each of these intersections between law culture and politics traditional expectations have been transformed in ways that pose a threat to the continued vitality and authority of law and democracy The authors analyze specific instances in which such a decline has occurred or is threatened tracing them to the empire of force a phrase borrowed from Simone Weil This French intellectual applied the term not only to the brute force used by police and soldiers but more broadly to the underlying ways of thinking talking and imagining that make that sort of force possible including propaganda unexamined ideology sentimental clichés and politics by buzzwords all familiar cultural forms Based on the underlying crisis and its causes the editors and authors of these essays agree that neither law nor democracy can survive where the empire of force dominates Yet each manages to find a ground for hope in our legal and democratic culture H Jefferson Powell is Frederic Cleaveland Professor of Law and Divinity at Duke University and has served in both the federal
