### Kit Contents:

Quality check by:

- \_\_\_ 1 Control Box
- \_\_\_ 1 EFI harness
- \_\_\_ 1 battery/jumper connector
- \_\_\_ 2 velcro strips
- \_\_\_ 1 reusable zip-tie

**IMPORTANT - PRODUCT REGISTRATION:** Please register this product online as soon as possible (if you do not have internet access, please call us at 208-542-4411). It is required that you register this product so you can receive technical support, warranty claims, and so you can keep informed of product updates.

To register, go to [www.boondockers.com](http://www.boondockers.com), select "SUPPORT" then select "PRODUCT REGISTRATION". Please complete the on-line form. Be sure to enter the serial number (SN) that is displayed when the Control Box is first powered on (refer to instructions below).

### I. Theory of Operation:

The BoonDocker Control Box connects between the sled's ECU (Electronic Control Unit) and the fuel injectors. It does not reprogram or interfere with the ECU. It only modifies the existing signals sent from the ECU to the fuel injectors. By modifying only these signals, it is possible to make fuel changes while keeping the stock fuel map. This means the ECU can still compensate for engine speed, throttle position, barometric pressure, engine temperature, air temperature, etc.

The Control Box can reduce fuel or increase fuel amounts for certain rpm ranges and load conditions by use of its keypad and LCD display. As with tuning a carburetor, it is possible to go too rich or too lean! **Note:** Be sure you know how to properly tune an engine before you adjust the fuel settings!

**Note:** Each Control Box is model specific and cannot be interchanged. For example, do not use a Control Box designed for a Polaris on an Arctic Cat.

### II. Control Box Harness Connectors

There are two connectors at the end of the black cable as shown below. One is for the EFI wiring harness and the other is for the optional Nitrous wiring harness. These two connectors are keyed (male/female) so only the correct harness will fit into the correct plug-in (refer to pictures).

**Note:** In order to prolong the life of the connectors, do not plug and un-plug the connectors more than necessary.
