together Smagorinsky s extensive research over a 20 year period Learning to Teach English and the Language Arts explores  
how beginning teachers pedagogical concepts are shaped by a variety of influences Challenging popular thinking about the  
binary roles of teacher education programs and school based experiences in the process of learning to teach Smagorinsky  
illustrates through case studies in the disciplines of English and the Language Arts that teacher education programs and  
classroom school contexts are not discrete contexts for learning about teaching nor are each of these contexts unified in the  
messages they offer about teaching He explores the tensions not only between these contexts and others but within them to  
illustrate the social cultural contextual political and historical complexity of learning to teach Smagorinsky revisits familiar  
theoretical understandings including Vygotsky s concept development and Lortie s apprenticeship of observation to consider  
their implications for teachers today and to examine what teacher candidates learn during their teacher education  
experiences and how that learning shapes their development as teachers      **Vietnam War Stories** Tobey C.
