### **The Zimsec Papers Of November 2015 Science:**

*Theory, Knowledge, Development and Politics* Mawere, Munyaradzi, Nhemachena, Artwell, 2016-05-03 This volume interrogates the popularity of problematic theories in the study of Africa and Africans in the 21st century. The book provides ethnographic and intellectual material for scholars seeking to rethink and reimagine a number of externally imposed theories used unconsciously in Africa with the intention of raising awareness and fostering critical thinking amongst scholars theorising Africa. With its theorising focus and contributors drawn from diverse disciplines and geographical locations, the book is both a pacesetter on how to think research and theorise Africa and an invaluable asset for social scientists, development practitioners, civil society activists and leaders in the politics and economy of everyday life on the continent. It poses an invitation to those seeking to re-embrace and reconnect with theory as an indispensable ingredient and determinant of quality in critical production and consumption of knowledge on Africa and of relevance to Africans. *Handbook of*

*Research on Sub-National Governance and Development* Schoburgh, Eris, Ryan, Roberta, 2016-11-30 Effective governance is a crucial aspect of all modern nations. Through various collaborative efforts and processes, nations can enhance their current governance systems. The *Handbook of Research on Sub-National Governance and Development* is a pivotal reference source for the latest scholarly material on the intersection between local and national politics, analyzing how this relationship affects nations' economy and administration. Highlighting theoretical foundations and real-world applications, this book is ideally designed for professionals, academics, students, and practitioners actively involved in the fields of public policy and governance. **The Sustainability Ethic in the Management of the Physical, Infrastructural and Natural Resources of Zimbabwe**

Chirisa, Innocent, 2019-05-27 Humanity has extensively exploited natural and physical resources since the Industrial Revolution in Europe. A geological era now called the Anthropocene has been coined in environmental and developmental circles to mark the increased domination of humanity on Earth and its resources. Today, the ecological footprint on the fragile planet continues to increase. Mass industrialisation like what China is doing and pushing for is one of the drivers for increased urbanisation that results in increased demand for land. It is also the stimulus behind increased deforestation, overfishing, and pollution. As the fragility of the Earth increases, global bodies like the Intergovernmental Panel on Climate Change are pushing to reduce the Earth's temperature. Human efforts to manage the problem cascade from a global to a regional to a national as well as to much localised scales. Missing though are nuanced contributions at national and community levels, which this book is an attempt to bridge. The nagging sense of responsibility is what this book explores under the label of sustainability ethic. As a case study, the book examines the use of sustainability ethic in the management of the physical, infrastructural, and natural resources of Zimbabwe. This ethic is built on pillars that include participation of people, households in their pursuit for sustainable livelihoods, appropriate technology, tools and techniques for environmental protection. It also hinges on stewardship and structures, institutions, policies, and processes of governance and sustainability.

There are also the aspects of ethics laws and indigenous technical knowledge for sustainability capacity building and education plans and programmes for sustainability and population and demographic determinants processes and outcomes for sustainability The book is a timely contribution to an urgent global concern and climate change debate A Cat and Mouse Affair Shora, Bruno, 2018-09-24 Clashes between vendors and authorities have become a common feature of Zimbabwe society Though vending brings some undesirable effects such as chaotic and disorderly business practices it is noted that vending has a particular role to play in times of high unemployment The relationship between vendors and the local authorities is reminiscent of a cat and mouse affair high costs are incurred in carrying out the fights property at times is destroyed there are injuries and in some rare cases fatalities and arrests are made This book offers practical solutions and way in which vending can be organised systematic and much to the economic benefit of society With cases examined from all over the word entrepreneurs the policy maker the civic society and students will find this book useful Its contribution adds much value towards formulating sustainable methods in transforming Zimbabwe s economy and society **Handbook of Transnational Environmental Crime** Lorraine Elliott, William H. Schaedla, 2016-07-27 Crimes associated with the illegal trade in wildlife timber and fish stocks pollutants and waste have become increasingly transnational organized and serious They warrant attention because of their environmental consequences their human toll their impacts on the rule of law and good governance and their links with violence corruption and a range of crossover crimes This ground breaking multi disciplinary Handbook brings together leading scholars and practitioners to examine key sectors in transnational environmental crime and to explore its most significant conceptual operational and enforcement challenges **Financial Inclusion Regulatory Practices in SADC** Howard Chitimira, Tapiwa Warikandwa, 2023-05-25 Against a background of calls to prioritise the improvement of financial inclusion in Africa this book provides an analysis of current financial inclusion measures in Southern Africa Evaluating the existing strengths and weaknesses of financial inclusion in Africa it identifies opportunities to improve inclusive financial services and aid poverty reduction in the region With a focus on South Africa Namibia Botswana and Zimbabwe as case studies for assessing current financial inclusion in the context of particular challenges faced by unbanked and underbanked customers who are easy targets for cybercriminals due to low levels of digital literacy it looks into the regulation and promotion of financial inclusion in Southern Africa The book explores financial inclusion in the context of digital transformation in the 21st century examining the regulation and promotion of financial inclusion in the context of digital transformation as well as the challenges related to financial inclusion Suggesting improvements to aspects of company law securities and financial markets in the Southern African Development Community region the book offers a comprehensive study on the regulation and promotion of financial inclusion in the Southern African Development Community region It will be essential reading for students and academics researching financial inclusion international economic law and development **Restoring the Educational Dream. Rethinking Educational**

**Transformation in Zimbabwe** Shizha, Edward, 2013-12-07 The role of education in human well being and social development cannot be overestimated After a number of highly commendable policies on education in the first decade of independence the education system in Zimbabwe has taken a tumble that needs both examining and rectifying This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980 The book is targeted at academics scholars college and university students policy makers and other stakeholders and advocates a multi pronged approach that must involve all stakeholders if educational retransformation reconstruction and restoration are to be achieved The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe

Grid-locked African Economic Sovereignty Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions

*an ansys apdl code for topology optimization of structures* - May 28 2023

web jun 12 2020 this paper presents a 390 line code written in ansys parametric design language apdl for topology optimization of structures with multi constraints it adopts the bi directional evolutionary structural optimization method with the proposed dynamic evolution rate strategy der beso to accelerate the iteration convergence

ansys topology optimization lightweighting shape optimization - Nov 21 2022

web learn how ansys discovery provides rapid design exploration through structural optimization and how topology optimization capabilities can apply to multiple load cases and physics including modal and structural simulations

topology optimization using ansys mechanical - Feb 10 2022

web topology optimization is the numerical technique used to obtain the optimal layout of structural components by determining the areas of the parts that can be removed to maximize stiffness while reducing weight and keeping maximum stress below a

topology optimization for multi axis machining sciencedirect - Jan 24 2023

web jul 1 2019 this paper presents a topology optimization approach that incorporates restrictions of multi axis machining processes a filter is defined in a density based topology optimization setting that transforms an input design field into a geometry that can be manufactured through machining

structural optimization of machine tools including the static and - Apr 14 2022

web jan 1 2003 the use of topology optimization is helpful to obtain systematic and proper solution variants for a given static and dynamic design problem those solutions which can be generated automatically

*structural analysis simulation software ansys* - Jul 18 2022

**topology optimization in ansys grabcad tutorials** - Feb 22 2023

web mechtasia 20 may 2021 07 49 pm in this video tutorial i will show you the complete process of running a topology optimization analysis in ansys from this video tutorial will learn how to run a topology optimization analysis design validation and mesh recommendations for an optimized body to run a validation analysis on it

*ansys mechanical topology optimization ansys training* - Dec 23 2022

web this course is designed to provide the knowledge about the optimization workflow in ansys workbench the complete end

to end procedure is shown from the original cad to the final calculation on the optimized shape the course includes information about the optimization methods and the general theory it shows the basic as well as the

**mass reduction using structural optimization ansys webinar** - Mar 14 2022

web this tips and tricks webinar demonstrates how to use structural formerly topology optimization to for practical purposes relating to mass reduction in ansys this quick hitting webinar features a brief overview of the two most common optimization methods in ansys mechanical density based level set followed by a live demo walkthrough

*topology optimization and casting a perfect combination ansys* - May 16 2022

web topology optimization and casting perfect combination using topology optimization and structural simulation helps a casting company develop better products faster by thorsten schmidt technical director heidenreich harbeck ag moelln germany and boris lauber application engineer fe design gmbh karlsruhe germany

**topological optimization by ansys 18 1 for the additive** - Jun 16 2022

web feb 7 2022 the evolutions of ansys 18 1 notably the improvements made to high performance computing hpc will allow users to design faster and more intelligently from the very first stages of design fig 1 fig 1 comparison of the classical design approach and the design approach using topological optimization

study on kinematic structure performance and machining mdpi - Oct 21 2022

web apr 10 2023 in this study we used topology optimization for effective structural optimization designs the optimal conditions for topology optimization included lightweight structures which resulted in reduced structural deformation and increased natural frequency

**structural topology optimization make your design better ansys** - Apr 26 2023

web how topology optimization capabilities account for manufacturing constraints and can apply to multiple load cases and physics including modal and structural simulations how to expand a project to ansys mechanical for more advanced simulations and final validation
