Things Fall Apart Chapters:

Understanding Things Fall Apart Kalu Ogbaa, 1999-01-30 *Things Fall Apart* is the most widely read and influential African novel. Published in 1958, it has sold more than eight million copies and been translated into fifty languages. African culture is not familiar to most American readers, however, and this casebook provides a wealth of commentary and original materials that place the novel in its historical, social, and cultural contexts. Ogbaa, an Igbo scholar, has selected a wide variety of historical and firsthand accounts of Igbo history and cultural heritage. These accounts illuminate the historical context and issues relating to the colonization of Africa by European powers, in particular Britain's colonization of Nigeria. Fascinating materials bring to light the novel's cultural context: folkways, language, and narrative customs and traditional Igbo religion. Among the documents included are a slave narrative, interviews, journal and magazine articles, and historical essays. Each chapter is followed by questions for class discussion and ideas for student paper topics. A selection of maps and photos of Igbo culture complement the text. Following a literary analysis, historical documents trace the European powers' partition of Africa and the creation and colonization of Nigeria, home of the Igbo people. Several chapters on Igbo cultural harmony feature materials that explain the Igbo view of the world of humans and the world of the spirits, Igbo language and traditional Igbo religion, and material customs. Selections on the African novelists place *Things Fall Apart* in the context of African literature and emphasize the difference between African and Western elements of fiction. A concluding chapter examines the debate on writing African novels in ex-colonizers' languages. This casebook will greatly enhance the reader's appreciation of the novel and understanding of Igbo history, society, culture, and civilization. *Things Fall Apart* Chinua Achebe, 1997

The Spirit of Leadership Harrison Owen, 1999-04-12 The business world is desperate for leaders. Books and courses on leadership flood the market as companies search in vain for that one person who can make sense of their rapidly changing environment through assertiveness, charisma, and control. According to noted consultant Harrison Owen, our inability to locate such a person isn't the fault of our leaders; it's the fault of our expectations. In today's world, where chaos is normal and paradoxes can't be resolved, such old-style leaders no longer offer the solution. Today's world requires inspired leadership from all levels of the organization. Inspired leadership literally means spirited leadership, and this book explores the intimate connection between spirit and leadership; it implies. It presents the radical notion that spirit is the most important ingredient of any organization and that leadership means opening space for that spirit to show up in powerful and productive ways. *The Spirit of Leadership* lays out the New Rules of Leadership, rules which surprisingly turn out organizations have always played by. For the keys to these new rules, the book turns to those who have always successfully operated apart from the levers of formal power and authority: women. Offering lessons from effective female strategies, it reveals the true functions of leadership: to evoke, grow, sustain, comfort, and raise the spirit. Not to be confused with morale-building motivational techniques or even the current fad of spirituality in business, *The Spirit of Leadership* digs deeper to show that, at its essence,

leadership is our link to deep inner forces It provides practical steps readers can use to uncover their own capacity for leadership in whatever position they find themselves and to exercise that capacity both to enhance the performance of their organizations and to find their own fulfillment as complete human beings **Understanding Things Fall Apart** Solomon Ogbede Iyasere,1998 Critical essays on Chinua Achebe s novel Things fall apart A Short History of Chinua Achebe's Things Fall Apart Terri Ochiagha,2018-11-12 The publication of Chinua Achebe s Things Fall Apart 1958 is heralded as the inaugural moment of modern African fiction and the book remains the most widely read African novel of all time Translated into dozens of languages it has sold more than twelve million copies and has become a canonical reading in schools the world over While Things Fall Apart is neither the first African novel to be published in the West nor necessarily the most critically valued its iconic status has surpassed even that of its author Until now in the sixtieth anniversary year of its publication there has not been an updated history that moves beyond the book s commonly discussed contexts and themes In the accessible and concise A Short History of Chinua Achebe s Things Fall Apart Terri Ochiagha provides that history asking new questions and bringing to wider attention unfamiliar but crucial elements of the Things Fall Apart story These include new insights into questions of canonicity and into literary historiographical and precolonial aesthetic influences She also assesses adaptations and appropriations not just in films but in theater hip hop and popular literary genres such as Onitsha Market Literature

Wells, 1994-12-20 Has something indeed happened to evangelical theology and to evangelical churches According to David Wells the evidence indicates that evangelical pastors have abandoned their traditional role as ministers of the Word to become therapists and managers of the small enterprises we call churches Along with their parishioners they have

abandoned genuine Christianity and biblical truth in favor of the sort of inner directed experiential religion that now pervades Western society Specifically Wells explores the wholesale disappearance of theology in the church the academy and modern culture Western culture as a whole argues Wells has been transformed by modernity and the church has simply gone with the flow The new environment in which we live with its huge cities triumphant capitalism invasive technology and pervasive amusements has vanquished and homogenized the entire world While the modern world has produced astonishing abundance it has also taken a toll on the human spirit emptying it of enduring meaning and morality Seeking respite from the acids of modernity people today have increasingly turned to religions and therapies centered on the self And whether consciously or not evangelicals have taken the same path refashioning their faith into a religion of the self They have been coopted by modernity have sold their soul for a mess of pottage According to Wells they have lost the truth that God stands outside all human experience that he still summons sinners to repentance and belief regardless of their self image and that he calls his church to stand fast in his truth against the blandishments of a godless world The first of three volumes meant to encourage renewal in evangelical theology the other two to be written by Cornelius Plantinga Jr and Mark Noll No Place for Truth is a contemporary jeremiad a clarion call to all evangelicals to note well what a pass they have come to in capitulating to modernity what a risk they are running by abandoning historic orthodoxy It is provocative reading for scholars ministers seminary students and all theologically concerned individuals **Black Matters** Andrew Garrod, Robert

This book comes first of all as the answer to the yearning for more written literature on the identity of the Igbo people of the southeast of Nigeria. The early chapters deal with their geographical and historical identity. Then it holds a searchlight on the Igbo worldview, their sociocultural values and traditions, their religious concepts, the nature and character of the supreme being, their family agnates relationships and the structure and elements of social control dynamics which are unknown to the Western world. The showcase also discusses some very powerful elements and traditions that give the Igbo their peculiar identity: the kola nut tradition, Igbo name and food culture. This book is also a road map of the Igbo experience in the context of Nigerian histopolitical developments from 1914 to 1976: the crises, the pogrom and the Biafran phenomenon and the Ikemba Saga. Other hallmarks of this book include the profile of great personages, Igbo greatest heroes past and present, the icons of Igbo identity on both national and international scenes. And finally it concludes with the roll call, an amazing catalog of more than four thousand Igbo traditional names.
