Rita Assoreira Almendra, 2025-01-30 This book explores various pedagogical viewpoints and dialectical positions within the field of design education and the concept of proximity it has established with industries and manufacturing Which Proximity in Design Education frames a wide range of approaches in design studios on undergraduate graduate and postgraduate levels and their capacity to render meaningful and novel attitudes and actions beyond the classroom The urgent call for resilience in the way we lead our lives has brought our global boundaries and social tensions to the forefront of the conversation and there is a generation of students fully aware of our collective responsibility in this decisive decade As such educators need to rapidly
