cosmopolitan values The former concerns regarding demagoguery charisma and nihilism will enable an evaluation of Trump as a political character while the latter concerns regarding the status of universal versus local values will enable us to evaluate the content of Trumpism Taken together these essays seek to advance the public conversation about the relationship between the rise of Trump and the ideological forces that seek to justify that rise The Atheist's Survival Guide: 35 Ways to Combat Religious Intolerance Martin Johnson,2024-11-28 Don't just survive in a world of religious intolerance Thrive Are you an atheist agnostic or secular none who feels isolated and afraid of being ostracized or persecuted by radical religionists Are you a political progressive advocate for gender equality or member of the LGBTQ or neurodivergent communities who has often been accused of being irreligious and been accused of lacking morals and religious values by Christian nationalists and MAGA extremists Might you potentially be viewed as a threat to the rise of politicized religion that is sweeping the globe If so this guide is for you Don't be afraid Even in this era where religious and crypto religious extremists are seizing political power including in the pluralistic US and Western Europe we seasoned atheists are here to embrace and support you and we're growing in number This guide grounded in the spirit of humanism rationalism and empathy is geared toward the intellectually curious novice and religiously savvy secularist alike It offers thirty five actionable insights that can help you to foster mutual understanding and respect promote peaceful coexistence amid diversity and go into full survivalist or combat mode when necessary Testimonial Whether you're a brand new baby atheist struggling to make sense of it all or a battle hardened heretic increasingly alarmed by the ongoing political nightmare that is our current reality this handy guidebook has what you need to understand and fight against the threat of religious fascism or to survive under theocratic fascist oppression David Fitzgerald Author of Nailed and The Complete Heretic's Guide to Western Religion series including The Mormons and Jesus Mything in Action FIDIC Contracts in Europe Donald Charrett,2022-11-29 FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions both common law and civil law For any construction project the General Conditions of Contract published by FIDIC need to be supplemented by Particular Conditions that specify the specific requirements of that project FIDIC Contracts in Europe A Practical Guide to Application provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the applicable laws that apply to the site where the work is carried out and for the governing law of the contract for a number of the jurisdictions in which FIDIC contracts are used This book closely follows the format of The International Application of FIDIC Contracts with the addition of an outline of the construction industry and information on the impact of COVID 19 on both the execution and operation of construction contracts in each jurisdiction This book is essential reading for construction professionals lawyers and students of construction law **The New Extremism in 21st Century Britain** Roger Eatwell,Matthew Goodwin,2012-11-12 Since the 1990s there has been a growing concern about the resurgence of extremist and radical

Fascism: The 'fascist epoch' Roger Griffin, Matthew Feldman, 2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the

extraordinary divergence of interpretations of fascism *Learning Legal Rules* James Holland, Julian Webb, 2022 *Learning Legal Rules* introduces law students to the techniques of legal analysis and argument equipping them with the knowledge and reasoning skills needed for effective study and practice of law The text has been used in common law countries around the world as a leading legal method guide for over twenty years **Clerical Fascism in Interwar Europe** Matthew Feldman, Marius Turda, Tudor Georgescu, 2013-10-31 This edited volume arose from an international workshop convened in 2006 by Feldman and Turda with Tudor Georgescu supported by Routledge and the universities of Oxford Brookes Northampton and CEU Budapest As the field of fascist studies continues to integrate more fully into pan European studies of the twentieth century and given the increasing importance of secular political religion as a taxonomic tool for understanding such revolutionary movements this collection of essays considers the intersection between institutional Christian faiths theology and congregations on the one hand and fascist ideology on the other In light of recent debates concerning the intersecting secularisation of religion and usually Christian based the sacralisation of politics *Clerical Fascism in Interwar Europe* approaches such conundrums from an alternative perspective How in Europe between the wars did Christian clergy laity and institutions respond to the rise of national fascist movements In doing so this volume provides case studies from the vast majority of European countries with analyses that are both original in intent and comprehensive in scope In dealing with the relationship of various interwar fascist movements and their respective national religious institutions this edited collection promises to significantly contribute to relevant academic historiographies and as such will appeal to a wide readership This book was previously published as a special issue of *Totalitarian Movements and Political Religions* **The Far-Right in World Politics** Alexander Anievas, Richard Saull, 2024-11-01 This book addresses the reasons why the contemporary far right has gained political resonance in a variety of states across both the Global North and South The rise of far right forms of politics in recent years throughout a range of geopolitical locales suggests the emergence of a distinct conjuncture in world politics indicating a common set of enabling conditions and characteristics It is this unprecedented context in the history of the post war liberal international order that this edited volume aims to address In doing so it brings together a diverse range of scholars many of whom have developed an internationally recognized expertise in the study of the far right and International Relations IR Reflecting a plurality of methodological and theoretical perspectives the chapters cover a variety of theoretical and conceptual issues including analyses of different geopolitical and national expressions of the contemporary far right Notwithstanding such diversity the primary analytical focus of the book is to situate and explain the far right as a distinct part of the history of modern international relations especially with respect to the development of and crises within the contemporary international order From this perspective the contributions combine to demonstrate the deeply embedded symptoms of far right politics centred on racialized imaginaries across the globe and re produced within the sinews of an evolving liberal international order even as the far right also represents an antagonism to some elements of

said order Providing a much needed global perspective this book will be of great interest to students and scholars of populism far right politics conservatism and international relations The chapters in this book were originally published as a special issue of Globalizations and are accompanied by a new epilogue Human Geopolitics Alan John Gamlen, 2019 This volume charts the rapid rise of various forms of diaspora institutions across distinct historical phases and geographical regions explaining the way that evolving models and best practices of international migration management have increasingly changed the way states see their diasporas and reconfigured the rules of international politics
